ABOUT ALMAR

Stile italiano. Etica. Innovazione.

I **sistemi doccia ALMAR** rielaborano il concetto di design all'interno dello spazio bagno, attraverso l'innata eleganza del made in Italy e una nuova sensibilità etica nell'abitare. Una **filosofia legata alla tradizione**, sostenuta da una **visione innovativa e funzionale**, porta ALMAR a realizzare ogni singolo componente di prodotto all'interno dei suoi stabilimenti.

Moderne tecniche di ingegneristica, unite a una **ricercata attenzione al dettaglio**, garantiscono ai prodotti ALMAR finiture preziose e i più alti standard di qualità e precisione.

Italian Style. Ethics. Innovation.

ALMAR's shower systems refashion the concept of design in the bathroom, through the inborn elegance of made in Italy products and a new ethical sensitivity in living.

*Thanks to a **philosophy bound to tradition**, supported by an **innovative and functional vision**, ALMAR realizes all product components in its factory.*

***Modern engineering technics**, together with a **studied attention to details**, ensure ALMAR's products precious finishes and the highest quality and precision standards.*

LA NOSTRA STORIA

OUR HISTORY

1900

DAL 1900 | UN'AUTENTICA PASSIONE PER L'ACQUA

La storia di un'azienda è spesso intrecciata con la **storia del luogo in cui tutto è nato**. Per ALMAR, quel luogo è un **mulino ad acqua**.

Era il 1900 quando il capostipite della **famiglia Civelli** comprò un mulino ad acqua per la macina del grano. Un antico mestiere di famiglia, profondamente legato a una **passione per l'acqua** che verrà tramandata di generazione in generazione.

La stessa passione con cui, oltre un secolo dopo, Marco e Aldo Civelli accompagneranno ALMAR sul mercato internazionale, emozionando i propri clienti attraverso una **nuova esperienza con l'acqua** che rivoluzionerà il modo di abitare lo spazio bagno.

SINCE 1900 | A REAL PASSION FOR WATER

*The history of a company is often interlaced with the one of the **place where everything began**. As far as ALMAR is concerned, this place is a **water mill**.*

*In 1900, the progenitor of **Civelli family** bought a water mill to grind wheat. An old family craft, deeply bound with a **passion for water**, that will be handed down to the following generations.*

*The same passion with which, after more than one century, Marco and Aldo Civelli will accompany ALMAR on the international market, providing their customers with a **new experience with water**, that will revolutionize the way of living the bathroom.*

LA NOSTRA STORIA

OUR HISTORY

Almar

1969 Gianluigi Civelli fonda la Civelli Gianluigi & C. snc, un'azienda artigiana specializzata nella costruzione di stampi, che inizierà presto ad operare nel mercato delle rubinetterie.	1996 NASCE ALMAR. I figli Marco e Aldo iniziano la loro attività imprenditoriale: la nuova azienda dedica la sua attività al settore bagno, attraverso la produzione di accessori per rubinetterie per conto terzi.	1999 Nascono i primi prodotti e sistemi doccia ALMAR: ogni pezzo è ideato, progettato e prodotto internamente.	2009 ALMAR ottiene la certificazione ISO 9001.	2012 L'inedito concept di Sistemi Doccia by ALMAR segna la nuova direzione dell'azienda: regalare ai propri clienti esperienze emozionali attraverso le proprie creazioni.	2015 ALMAR inaugura la sua nuova sede a Cocquio Trevisago.	2018 ALMAR è tra le prime aziende in Italia a introdurre all'interno dei suoi processi produttivi il rivestimento PVD (Physical Vapor Deposition).	2019 La produzione si amplia con un nuovo reparto di turneria e fresatura in acciaio e ottone.	2020 ALMAR inaugura il suo nuovo showroom. Uno spazio accogliente e ricercato in cui visionare le collezioni nel luogo stesso in cui hanno origine.
1969 <i>Gianluigi Civelli establishes Civelli Gianluigi & C. snc, a craft business specialized in the production of moulds and in the moulding of thermoplastic materials. Soon, the company will start operating in the market of taps and fittings.</i>	1996 <i>ALMAR is born. After a period of apprenticeship in other companies of the sector, Gianluigi's sons – Marco and Aldo – start their entrepreneurial activity. The new company devotes itself to the bathroom sector, producing taps and fittings on behalf of third parties.</i>	1999 <i>ALMAR's first products and shower systems are born: every piece is designed, planned and produced internally.</i>	2009 <i>The company obtains the ISO 9001 certification.</i>	2012 <i>The new concept of Shower Systems by ALMAR marks the new direction of the company: providing their customers with emotional experiences through their creations.</i>	2015 <i>ALMAR opens the new seat in Cocquio Trevisago.</i>	2018 <i>ALMAR is one of the first companies in Italy that introduces within its production processes the PVD (Physical Vapor Deposition) coating.</i>	2019 <i>The production enlarges with a new steel and brass turnery and milling department.</i>	2020 <i>ALMAR opens its new showroom. A friendly and refined space where the collections can be seen in the place where they are created.</i>

GLI STABILIMENTI ALMAR

ALMAR'S FACTORY

Gli **stabilimenti ALMAR** si estendono su una superficie totale di **10.000 mq.** Oltre ai reparti produttivi e agli uffici tecnici e amministrativi, l'azienda accoglie un **nuovo showroom espositivo**, inaugurato a gennaio 2020. Uno spazio accogliente e ricercato in cui testare le collezioni ALMAR nel luogo stesso in cui hanno origine, attraverso un'**esclusiva esperienza con l'acqua**.

ALMAR's factory covers a total surface of 10,000 square meters. More than the production departments and the technical and administrative offices, the company hosts **a new showroom**, opened in January 2020. A friendly and refined space where ALMAR's collections can be tested in the same place where they have been produced, through an **exclusive water experience**.

PRODUZIONE

PRODUCTION

UNA PRODUZIONE MADE IN ALMAR

Non ci limitiamo a progettare sistemi doccia. Creiamo emozioni. Nati da una passione per il design che si libera da ogni comune interpretazione, i prodotti ALMAR si trasformano in oggetti capaci di dare valore anche al più piccolo gesto.

I sistemi doccia ALMAR sono **prodotti in Italia da oltre 20 anni**. Moderne tecniche di ingegneristica e l’eleganza del design italiano garantiscono finiture di pregio e i più alti standard di qualità e precisione. La **filosofia dell’azienda** porta ALMAR a realizzare ogni singolo componente di prodotto all’interno dei propri stabilimenti: l’intero ciclo produttivo, dal design alla produzione e logistica, viene gestito da uno **staff interno attento e qualificato**, orgoglioso di fornire solo il risultato più perfetto. Durante i processi di lavorazione vengono impiegati soltanto materiali di altissima qualità. In ogni fase di produzione, ALMAR tiene in forte considerazione le sue responsabilità sociali e ambientali, ponendosi come obiettivo primario la **sicurezza dei propri dipendenti** e la **salvaguardia dell’ambiente**.

ALMAR è certificata secondo gli standard di qualità UNI ENI ISO 9001:2015 (sistema gestione qualità) e ISO 45001 (sicurezza sul posto di lavoro).

A MADE IN ALMAR PRODUCTION

We don’t merely design shower systems. We create emotions. Born from a passion for design, free from any common interpretation, ALMAR’s products convert into objects able to enhance even the littlest gesture

ALMAR’s shower systems have been **produced in Italy for more than 20 years**. Modern engineering techniques and the elegance of Italian design ensure refined finishes and the highest quality and precision standards. The **company philosophy** takes ALMAR to realize every product component in its plants: the whole production cycle, from design to production and logistic, is managed by a careful and **skilled inner staff**, proud to provide only a perfect result. During the processing stages, only highest quality materials are used. In every production stage, ALMAR takes into great consideration its social and environmental responsibilities, setting itself as a primary goal its **employees’ security** and the **environment protection**.

ALMAR is certified according to ISO 9001 (quality management system) and OHSAS 18001 (security on the working place) quality standards.

POLITICA AMBIENTALE

ENVIRONMENTAL POLICY

A contraddistinguere ALMAR non è soltanto la **qualità** e la **sostenibilità** dei suoi prodotti, ma anche il modo che sceglie per realizzarli: l'**attenzione all'ambiente** gioca un ruolo fondamentale in tutte le fasi di processo.

Durante ogni ciclo di lavorazione, **gli sfridi vengono riciclati e reinseriti nella fase di produzione**, evitando così gli scarti e riducendo i processi inquinanti.

ALMAR presta la massima attenzione anche al **riciclo** e al **consumo consapevole delle risorse naturali**.

Gli obiettivi ambientali di ALMAR:

- aumentare l'utilizzo di materiali ecologici ed ecosostenibili;
- ridurre la quantità di energia utilizzata durante ogni singola fase di produzione;
- lavorare attivamente alla riduzione dell'impatto sull'ambiente attraverso una gestione sempre più responsabile di rifiuti ed emissioni.

*ALMAR's distinguishing marks are not only the **quality** and **sustainability** of its products, but also the methods it chooses to realize them: the attention to environment plays an essential role in all stages of the process.*

*During every processing cycle, the **rebounds are recycled and reintroduced in the production stage**, in order to avoid waste and reducing the polluting processes.*

*ALMAR pays the maximum attention also to the **recycle** and aware **consumption of natural resources**.*

ALMAR's environmental objectives:

- *increasing the employment of ecological and ecologically sustainable materials;*
- *reducing the quantity of energy employed during each production stage;*
- *working actively in order to reduce the impact on the environment through a more and more responsible management of waste and emissions.*

Consapevole dell'importanza di agire in prima persona per la **salvaguardia dell'ambiente**, ALMAR investe in nuove tecnologie green (PVD) e sceglie sistemi all'avanguardia nelle emissioni (circuiti chiusi lavaggio IFP).

Nel 2019 ALMAR installa presso il suo stabilimento di Cocquio Trevisago 430 pannelli fotovoltaici ad alta efficienza.

*Aware of the importance of acting personally for the **environment protection**, ALMAR invests in new green technologies (PVD) and chooses state-of-the-art systems in the emissions (IFP washing closed circuit).*

In 2019, ALMAR installs 430 highly efficient photovoltaic panels in the factory of Cocquio Trevisago.

CERTIFICAZIONI DI PRODOTTO

PRODUCT CERTIFICATIONS

La sicurezza e la conformità dei sistemi doccia ALMAR sono garantite dai più importanti enti di certificazione mondiale. Ogni certificazione testimonia l'esclusività e l'unicità di ogni prodotto, e la volontà di ALMAR di assicurare ai propri clienti i più alti standard qualitativi presenti sul mercato.

POTABILITA' DELL'ACQUA

I prodotti ALMAR sono dotati di valvole di non ritorno, per **impedire reflussi dannosi e contaminazioni dell'acqua** provenienti dall'esterno. Ogni componente è prodotto con tecnopolimeri omologati secondo le più severe **normative internazionali** per il contatto con acqua potabile:

ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW

[VERIFICARE LE LISTE UFFICIALI DI OGNI ENTE]

RIDUZIONE DEI CONSUMI

ALMAR si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. Mediante la produzione di articoli in grado di funzionare con un ridotto utilizzo di acqua e un invariato comfort di getto, ALMAR ottiene le più ambite certificazioni in merito al risparmio idrico.

TEST MECCANICI

Il laboratorio tecnico ALMAR è **certificato per l'esecuzione dei test CSA**: tale abilitazione consente all'azienda di eseguire internamente la maggior parte dei test richiesti dalla normativa, accorciando il lead time necessario al conseguimento di tale certificazione. Il funzionamento e la resistenza nel tempo dei prodotti ALMAR sono inoltre garantiti dalle normative NFe CSA.

The security and compliance of ALMAR's shower systems are ensured by the most important world certification authorities. Every certification witnesses the exclusiveness and uniqueness of each product and ALMAR's will to ensure its customers the highest quality standards present on the market.

WATER POTABILITY

ALMAR's products are equipped with non-return valves, in order to **avoid harmful backflows and water contaminations** coming from outside. All components are produced with thermoplastics homologated according to the strictest **international standards** for the contact with drinkable water.

ACS ~ WRAS ~ KIWA ~ CSA ~ NSF 61 ~ W270 ~ KTW

[CHECK THE OFFICIAL LISTS]

CONSUMPTIONS REDUCTION

ALMAR's purpose is an ecological behaviour aimed at protecting the climate and the environment. Through the production of items operating with a reduced employment of water and an unchanged jet comfort, ALMAR obtains the most sought-after certifications on water saving.

MECHANICAL TESTS

ALMAR'S technical laboratory is **certified for the execution of the CSA tests**: such qualification allows the company to carry out internally most of the tests required by the regulation, reducing the lead time needed to achieve such certifications. The operation and endurance of ALMAR's products are also ensured by the NF and CSA regulations.

SOSTENIBILITA': WATER SAVING

WATER SAVING: ECOAIR SYSTEM

Sistema Eco Air System, per un utilizzo ecologico dell'acqua. Aiuta il pianeta senza rinunciare al comfort di sempre.

Una pioggia dolce, capace di combinare aria ed acqua in un vortice di sensazioni morbide e rigeneranti: aumenta il piacere di fare la doccia e diminuisce il tuo fabbisogno d'acqua con la **collezione di docce e soffioni EcoAir**.

La tecnologia EcoAir miscela l'acqua alle particelle d'aria, regalando alle tue docce un getto ancora più piacevole mentre **riduce il tuo consumo d'acqua**. Impreziosite dell'aria, le gocce d'acqua diventano più leggere, soffici e piene.

WATER SAVING: il sistema EcoAir si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. EcoAir System è un dispositivo brevettato, in grado di consentire un risparmio del consumo dell'acqua fino al 50%, pur mantenendo inalterato il comfort sensazionale del getto. Il sistema è costante su ogni valore (range) di pressione e di portata, per un'applicazione senza limiti di sistema.

*EcoAir System, for a responsible employment of water.
Help the planet, without giving up the usual comfort.*

*A sweet rain, able to combine air and water in a vortex of soft and regenerating feelings: increase the pleasure of having a shower, reducing your need of water with **EcoAir collection of showers and shower heads**.*

*The EcoAir technology mixes water with air particles, providing your showers with a more enjoyable jet, **reducing at the same time the water consumption**. Enhanced by air, water droplets become lighter, softer and fuller.*

WATER SAVING: EcoAir system is aimed at obtaining an ecological behaviour to protect the climate and the environment. EcoAir System is a patented device, allowing up to 50% saving of the water consumption, without modifying the sensational comfort of the jet. The system is constant on any range of pressure and capacity, for an application without system limits.

SHOWER SYSTEMS | ABITA IL TUO BAGNO CON ALMAR

SHOWER SYSTEM | LIVE YOUR BATHROOM WITH ALMAR

Una LifeSpa in cui coccolarti.
Un luogo di raccoglimento per far scivolare via i pensieri.
Una soluzione d'arredo capace di stupire.

I sistemi doccia ALMAR traducono in soluzioni ogni aspirazione.

La **stanza da bagno** – l'ambiente più intimo e personale della nostra casa – rivela il nostro modo di essere e di vivere gli spazi.

In una casa moderna, la sala da bagno abbandona il suo ruolo di spazio puramente funzionale per trasformarsi in un **ambiente ricercato e accogliente**, in cui concedersi del tempo e prendersi cura del proprio corpo.

Ecco perché la **scelta della doccia**, protagonista indiscussa del nostro bagno, diventa tanto importante.

*A LifeSpa to enjoy.
A contemplation place to escape your thoughts.
An amazing furniture solution.*

ALMAR's shower system converts every aspiration into solution.

The **bathroom** – the most intimate and personal environment of our homes – reveals our way of being and living spaces.

In a modern house, the bathroom abandons its role of merely functional space and converts into a **refined and pleasant environment**, where you can take your time and take care of our body.

That's why the **choice of the shower**, undisputed protagonist of our bathroom, is so important.

NUOVI PRODOTTI

NEW PRODUCTS

Rainbow +

Temptation Dual Flow Chromotherapy

Rainbow + trasforma il piacere della doccia in un’esclusiva esperienza multisensoriale. Un design geometrico e fuori dall’ordinario nasconde al suo interno un’avanzata tecnologia: l’acqua sembra fondersi al colore, come per magia. **Rainbow +** è disponibile in due versioni - getto pioggia e getto icicle - o nella sola funzione pioggia, e raggiunge la sua perfezione attraverso l’utilizzo della cromoterapia.

***Rainbow +** converts the pleasure of the shower in an exclusive multisensorial experience. A geometrical and extraordinary design hides in it an advanced technology: water seems to melt with colour, as if by magic.*

***Rainbow +** is available in two versions – rain and icicle jets – or only with the rain function, and reaches its perfection through the employment of chromotherapy.*

RIVESTIMENTO PVD

PVD COATING

ALMAR è tra le prime aziende in Italia, e tra le poche in Europa, a introdurre all’interno dei suoi processi produttivi una lavorazione che cambierà l’idea di rivestimento: il **PVD** (Physical Vapor Deposition).

Ottenuto dall’evaporazione dei metalli che compongono lo strato di rivestimento esterno, il PVD **migliora le caratteristiche funzionali del prodotto**, rendendolo più duraturo e resistente agli agenti atmosferici.

L’intero processo PVD è **sicuro ed ecosostenibile**: non produce scorie di lavorazione e non utilizza materiali tossici.

Il rivestimento PVD Brushed è disponibile anche nella collezione Acciaio 316

*ALMAR is one of the first companies in Italy, and one of the few in Europe, that introduced in its production stages a processing that will change the idea of coating: the **PVD** (Physical Vapor Deposition).*

*Obtained from the evaporation of the metals constituting the external coating layer, the PVD **improves the functional features of the product**, making it more lasting and resistant to atmospheric agents.*

*The whole PVD process is **safe and ecologically sustainable**: it does not produce processing waste and does not use toxic materials.*

The coating PVD Brushed is also available in the 316 Stainless Steel Collection.

New Water Experience

Relax
Comfort
Regeneration
Wellbeing

New Water Experience

Regalati ogni giorno l'**esperienza di un'esclusiva LifeSpa**: le docce ALMAR ti accolgono in un'elegante oasi di pace, in cui rifugiarti dalla frenesia quotidiana e lasciarti andare.

I sistemi doccia ALMAR sono pensati sulla tua unicità: la combinazione di differenti getti d'acqua ti offre la possibilità di creare il tuo sistema doccia ideale. Per un'esperienza intima, legata alle emozioni.

*Enjoy every day the **experience of an exclusive LifeSpa**: ALMAR's showers welcome you in an elegant haven of peace, where you can escape the daily frenzy and let your hair down.*

ALMAR's shower systems are thought for your uniqueness: the mix of different water jets offers you the possibility of creating your ideal shower system. For an intimate experience, connected with emotions.

wire

spin

La perfetta armonia di un movimento a spirale ad **intensa azione massaggiante e tonificante**. Il getto ideale per sciogliere tensioni e contratture dopo un allenamento sportivo o una lunga giornata di lavoro.

*The perfect harmony of a double spiral jet with a **deep massaging and tonic action**. The ideal jet to loosen tensions and contractures after a sports training or a long working day.*

icicle

Un elegante cilindro d'acqua che impatta sul corpo in un **getto pieno e coinvolgente**, per poi distribuirsi sulla pelle in modo delicato e uniforme. Per chi in una doccia cerca carattere e unicità.

*An elegant water cylinder hitting the body with a **full and involving jet**, that then distributes softly and evenly on the skin. For those who look for character and uniqueness in a shower.*

cascade

Un'ampia lama d'acqua si riversa sul corpo in un **getto piacevole e corposo**, per un profondo effetto distensivo da spalla a spalla.

*A wide water blade flows onto the body in a **pleasant and dense jet**, for a deep relaxing effect from one shoulder to the other.*

twist

Una voluminosa spirale d'acqua fluttua nell'aria e si riversa sulla pelle, per diffondersi in un **intenso effetto rigenerante** che coinvolge corpo e mente.

*A big water spiral flows in the air and on the skin, then spreads with a **intense regenerating effect** that involves body and mind.*

icicle

Copiosi cilindri d'acqua creano un'**ampia cascata a pettine** e si distribuiscono con uniformità sul corpo, senza perdere la loro consistenza durante la caduta.

*Rich water cylinders create **a wide diagonal waterfall** and distribute uniformly on the body, without losing their consistency during the fall.*

Una pioggia sensuale e rigenerante: miliardi di cristalli d'acqua si infrangono sulla pelle, facendo scivolare via la stanchezza. Un **vivace getto basculante**, perfetto per iniziare la giornata con una nuova energia.

*A sensual and regenerating rain: thousand water crystals break on the skin, letting tiredness flow away. **A lively tilting jet**, perfect to start the day with a new energy.*

Una rinfrescante pioggia nebulizzata che avvolge in un **tocco silenzioso, leggero e avvolgente**. Ideale, dopo il getto pioggia, per concludere la doccia quotidiana.

*A refreshing nebulized rain wrapping up in **a silent, light and enveloping touch**. Ideal, after rain jet, to end the daily shower.*

Per una doccia quotidiana speciale nella sua semplicità. Un **getto uniforme, rapido e versatile**, adatto ad ogni momento della giornata.

*A special, simple daily shower. An even, **quick and versatile jet**, suitable for every moment of the day.*

*Regolabile manualmente in 3 posizioni / *Manually adjustable in 3 positions.*

La potenza del getto spin unita all'installazione a parete, per un **massaggio localizzato su gambe e schiena**, capace di riattivare la circolazione sanguigna e tonificare i tessuti.

*The power of the spin jet, joined with the installation on the wall, for **localized massage on legs and back**, able to reactivate the blood circulation and tone up the tissues.*

Un'onda basculante che accarezza con vigore, per un **rigenerante massaggio total body**.

*A tilting wave caressing with strength, for a **regenerating total body massage**.*

Un ampio getto a pioggia, per un **effetto drenante e profondamente avvolgente**.

*A wide rain jet, for a **relaxing and deeply enveloping effect**.*

bodyjet mist

Nella pagina accanto il nuovo body jet Mist con effetto nebulizzato / In the next page new Mist Body Jet with spary rain jet.

HAND SHOWERS

SENSE PROGRAM

Una nuova avventura con l'acqua, nascosta in un piccolo bottone.

La **collezione docce Sense** si concentra sull'essenzialità. Il suo stile minimal e razionale unisce forme leggere e senza tempo a un rivoluzionario sistema di selezione getti a pulsante. Basta un semplice gesto per scegliere tra **tre differenti tipi di getto**.

Il programma docce Sense è disponibile in due versioni, **monogetto e multigetto**.

A new adventure with water, hidden in a little button.

***Sense collection of showers** concentrates on essentiality. Its minimal and rational style joins light and timeless shapes with a revolutionary system to select the jets through a button. With a simple gesture, you can choose among **three different types of jet**.*

*The Sense showers program is available in two versions: **single and multi-jet**.*

A **strong jet** with an intermittent massaging action, conquering with its energizing action.

MASSAGE

DOCCE MONOGETTO

La doccia ideale è anche una questione di forme.

Angoli definiti o arrotondati, linee morbide o rigorose: **le doccette monogetto ALMAR** si inseriscono con eleganza in ogni sistema doccia. Per soddisfare tutti i gusti, anche quelli più esigenti.

The ideal shower is also a matter of shapes.

*Defined or rounded angles, soft or rigorous lines: **ALMAR's single-jet showers** can be introduced with elegance in every shower system. To satisfy everybody, even the most demanding people.*

POSH

Un amore per l'acqua ancora più prezioso.

An even more precious love for water

Realizzata in ottone, Posh abbandona il suo ruolo di doccetta per trasformarsi in un prezioso oggetto d'arredo. La sua **raffinatezza senza tempo** si accompagna a un'**eclettica versatilità nelle finiture**, rendendola adatta sia a un contesto classico sia a un ambiente più moderno.

*Made of brass, Posh abandons the pure role of shower and converts into a precious furniture object. Its **timeless elegance** matches with an eclectic **versatility of finish**, making it suitable both for a classic and for a modern environment.*

La versatilità dell'erogatore in finitura la rende adatta a ogni ambiente.

Il fascino contemporaneo del manico nero si completa attraverso la nuova serie di flessibili neri con conici in finitura.

The versatility of the finish makes Posh suitable to every environment.

The contemporary charm of the black handle is completed with the new series of black flexible hoses with finishing cones.

EASY INSTALLATION

Con **CORE** scegli tu la disposizione delle vie.

With **CORE**, you can choose the arrangement of the outlets.

DA 1 A 3 GETTI

Un unico corpo a incasso che ti permette di personalizzare in qualsiasi momento **estetica e funzionalità** del tuo miscelatore.

Con **CORE** potrai scegliere tra:

- **moduli meccanici;**
- **moduli termostatici;**
- **moduli termostatici push.**

L'unica decisione che dovrai prendere al momento dell'installazione è il numero di funzioni del tuo miscelatore. Per tutto il resto, concediti il lusso di cambiare idea.

Installando **CORE universal box**, potrai sostituire moduli, placche e finiture in qualsiasi momento, senza nuovi interventi di muratura.

FROM 1 TO 3 FUNCTIONS

A single embedded body that allows you to personalize at any moment the **look and functionality** of your mixer tap.

With **CORE** you can choose among:

- **single lever shower mixer;**
- **thermostatic modules:**
- **push thermostatic modules.**

The only decision you have to make at the moment of the installation concerns the number of functions of your mixer tap. As to the rest, you can change your mind whenever you want.

Installing **CORE universal box**, you can change modules, plates and finishing at any moment, without masonry interventions.

CORE PUSH

Quando l’**intuizione** accoglie la **semplicità**.

Con ALMAR basta un semplice tocco per fare la doccia: nel nuovo miscelatore **CORE PUSH** tutti gli elementi seguono la semplicità, e tutte le funzioni riportano a un **unico comando centrale**.

Un’elaborata tecnologia ti permette di selezionare portata e tipologia di getto con un unico comando - disponibile nella versione a due o tre tasti - mentre il contorno zigrinato ti garantisce una perfetta impugnatura.

Progettato in diverse finiture e varianti colore, **CORE PUSH** si integra armoniosamente con qualsiasi stile. Un nuovo concetto di miscelatore, per una doccia ancora più preziosa nella sua semplicità.

When **intuition** meets **simplicity**.

With ALMAR, a single touch is enough to have a shower: in the new **CORE PUSH** mixer tap, all elements are simple, and all functions are connected with **a single central control**.

An elaborate technology allows you to select the flow and type of jet with a single control - available both in version with two and three buttons – while the knurled metal ring ensures an ergonomic handgrip.

Planned with different finishing and colour variations, **CORE PUSH** fits harmonically with any style. A new concept of mixer tap, for a very precious but simple shower.

SMART FEATURES

- **Scatola a incasso universale** per versione meccanica, termostatica e termostatica con pulsanti per 1, 2 o 3 vie.
- **Universal embedded box** for mechanical and thermostatic version, for 1, 2 or 3 ways.
- **Facile e veloce installazione** del box universale su qualsiasi tipologia di muro (cemento, mattoni, cartongesso, legno).
- **Easy and quick installation** of the universal box on any type of wall (concrete, bricks, plasterboard, wood).
- Il **corpo centrale** in ottone della scatola a incasso è **completamente rivestito di gomma termoplastica**, per garantire la massima ermeticità e per ridurre il livello di rumorosità durante l'utilizzo.
- The brass **central body** of the embedded box is **covered with thermoplastic rubber**, to ensure the maximum watertightness and reduce the level of noise during the employment.
- Gli **ingressi di acqua calda e fredda** sono posizionati nella parte inferiore del box universale, al fine di evitare raccordi ad angolo durante l'installazione.
- The **hot and cold water inlets** are placed in the lower part of the universal box, in order to avoid corner joints during the installation.
- Le **versioni** meccanica e termostatica sono **intercambiabili** tra loro in ogni momento.
- The mechanical and thermostatic **versions** are **interchangeable** among them at any moment.
- Il prodotto viene fornito in **due diversi imballi**: il primo per il box universale da incasso, il secondo per le parti estetiche e i moduli funzionali.
- The product is supplied in **two different packaging**: the first one for the universal embedded box, the second for the aesthetical parts and the functional modules.
- Le **portate di acqua (l/min)** di ogni singola uscita sono studiate per poter installare qualsiasi prodotto della gamma Shower System di ALMAR.
- The **water flows (l/min)** of each outlet are studied so that any product of the range Shower System by ALMAR can be installed.

HIGH PERFORMANCES

Alte portate anche a bassa pressione (raccordi 3/4”).
High flows even at low pressure (3/4” connections).

Cartuccia termostatica ad alta precisione per una regolazione della temperatura immediata.
High precision thermostatic cartridge for an immediate temperature regulation.

Uso simultaneo di più funzioni.
Simultaneous employment of several functions.

Maniglie in ottone con rosoni singoli o placca unica.
Brass handles with single rosette or plate.

SMART FEATURES

Installazione orizzontale o verticale.
Horizontal or vertical installation.

Raccordi su ciascun lato del modulo deviatore per una facile installazione dei tubi.
Connections on each side of the switch unit for an easy installation of the pipes.

Facile e veloce installazione con “easy box” su qualsiasi tipologia di muro (cemento, mattoni, cartongesso, legno).
Easy and quick installation with “easy box” on any type of walls (concrete, bricks, plasterboard, wood).

Tappo di protezione in plastica per le fasi di installazione.
Plastic protection cover for the installation procedure.

Raccordi acqua calda e fredda in basso al modulo termostatico per evitare tubi con angoli di 90° e per ridurre gli spazi.
Hot and cold water connections placed in the lower part of the thermostatic module, to reduce the spaces and avoid installing pipes with 90° angles.

Tappo fornito di gradini per un uso preciso della bolla e per evitare errori di installazione.
Cover equipped with notches for a precise use of the level and to avoid installation mistakes.

Estetiche con placca unica o rosoni singoli.
Single plate or single rosette possibilities.

ACCESSORIES

soap&beauty holder

bathrobe holder

roll holder

In una stanza da bagno esclusività ed eleganza si rispecchiano anche nei particolari: gli **accessori ALMAR** sono disponibili in differenti finiture coordinate, e possono essere utilizzati come soluzione singola o come elementi da combinare tra loro.
Per chi è attento anche al più piccolo dettaglio.

*In a bathroom, exclusiveness and elegance are reflected also in details: **ALMAR accessories** are available in different coordinated finishing and can be employed as a single solution or as elements to be combined among them.*
For those who are interested even to the littlest detail.

DATASHEET

1_diagramma di portata | flowrate 2_dimensioni del prodotto | product dimensions 3_codice del prodotto | product code 4_informazioni aggiuntive | additional product informations 5_tipi di getto | type of jets 6_numero di getti/funzioni | number of jets (WAYS) 7_numero di pezzi in cartonbox | number of pieces in a cartonbox 8_finiture disponibili | availabe finishes

Per la comunicazione dell'ordine indicare, dopo il codice del prodotto, il punto seguito dalle due lettere corrispondenti alla finitura scelta.

esempio:
E044200.**CR** per finitura Cromo
E044200.**HB** per finitura PVD Brushed High Brass
E044200.**HB316** per finitura 316 PVD Brushed High Brass *
*NB: nel caso di prodotto in Acciaio 316, nel codice dopo il punto, indicare anche 316

To communicate the order, indicate after the product code, "dot" followed by the 2 letters of the chosen finishing.

exemple:
E044200.**CR** Chrome finishing
E044200.**HB** PVD Brushed High Brass finishing
E044200.**HB316** 316 PVD Brushed High Brass finishing *
*N.B.: for products in 316 Stainless Steel, in the product code after "dot", indicate also 316

* La finitura estetica del PVD SPAZZOLATO realizzato su Ottone o Acciaio 316 è differente, ciò è dovuto alla diversità del materiale di base su cui la finitura viene realizzata. Per questo motivo nel caso di scelta di PVD SPAZZOLATO su Acciaio 316, Almar consiglia di utilizzare nello stesso sistema doccia tutti prodotti in Acciaio 316.

* The aesthetical finish of BRUSHED PVD made on Brass or 316 Stainless Steel is different, this is due to the diversity of the material on which the finish is made. For this reason in the case of choice of BRUSHED PVD on 316 Stainless Steel, Almar recommends using all 316 Stainless Steel products in the same shower system.
