Storia

Olympia nasce nel 1979, si dimostra subito azienda adatta a soddisfare i gusti e le tendenze che generano il momento.

Grande merito va al processo produttivo di serie complete d'arredo bagno, contrariamente ad altre fabbricazioni Italiane, legate al settore del mobile, e quindi maggiormente concentrate sui lavabi, Olympia ha iniziato a produrre sanitari fin dall'inizio, impiegando un'esperienza cresciuta negli anni e che oggi garantisce un livello costante di alta qualità.

Sempre molto attenta ad uno sviluppo sostenibile, Olympia promuove il progetto Water is life, un risparmio idrico intelligente rilevandosi azienda "esempio" capace di soddisfare il benessere di tutti in termine di ambiente.

L'attenzione e la dedizione dell'organico di Olympia ha portato l'azienda in una posizione di tutto rispetto nella compagine mondiale, infatti ad oggi circa il 75% della produzione viene esportata, ed il nostro made in Italy è presente in 40 paesi diversi.

Un design all'avanguardia, sempre attento alle mode del momento, ha fatto sì che questa "boutique" di produzione, abbia sempre un elevato e contraddistinto contenuto stilistico.

History

Olympia started producing sanitary wares in 1979, company has proved immediately to suit the trends of the moment.

One speciality of Olympia is a very strong experience in the process of manufacturing wc's in contrast to other Italian manufactures who are historically linked to the furniture industry and therefore concentrating on washbasins.

Our company has been producing wc's since the very beginning giving them the necessary expertise to insure a constant high level of quality.

Nowadays Olympia chooses to make the difference in terms of environment and it has always been aware of the need to preserve water consumption. In order to "protect" this precious element the company has created Water is life project, becoming a fore runner in this field because being a leader means above all protecting people's welfare. Thanks to the professionalism of our staff today Olympia covers a respectful position in the global view, indeed 75% of production is exported and our "made in Italy" is present in 40 different countries.

The Olympia team always pays attention to the design and the fashions to give our productions desing led style.

Design

Sull'onda dello spirito e del pensiero orientale, il concetto di universo fluttuante come un'esortazione a vivere e ad assaporare l'esistenza nella sua transitorietà, immergendosi gioiosamente nel suo flusso per accettarne piacevolmente la duttilità.

La variabilità dei componenti è interpretata non come incertezza ma come creatività, in una combinazione dettata dal temporaneo stato d'animo personale, che varia e si trasforma in ogni momento della nostra esistenza.

Inspired by the spirit of Eastern thinking, the concept of a floating universe as an incitement to living and savouring life in a timely manner, immersing oneself in this feeling of joy in order to freely accept its adaptability.

The various combinations of the items is interpreted not as uncertainty but as creativity, in a combination dictated by the temporary state of mind which changes and transforms itself in every moment of our existence.

texture

Texture è la nuova collezione di Olympia Ceramica disegnata dallo studio Ldesignconcept che si ispira all'idea di un bagno in cui il colore prende forma e caratterizza un ambiente dalla forte identità. Texture è quindi la parola chiave del progetto che racchiude nel suo significato la possibilità di personalizzare le superfici ceramiche già esistenti (classiche, moderne, modulari..) attraverso colori, geometrie ed elementi di decorazione. Texture sottolinea la nuova concezione di bagno caratterizzato da una graficaslogan e inteso come spazio personale e suggestivo contestualizzato nella fantasia dei colori. La decorazione enfatizza la struttura dei prodotti ovvero un progetto di texture- pelle che rinforza anche la plasticità della struttura esistente.

Texture is the new collection by Olympia Ceramica designed by the Ldesignconcept Studio, inspired by the idea the sanitary ware shape and colour create a very strong environmental identity. Texture is, therefore, an extremely apt name for this project embodying in its meaning a unique opportunity to create a customised individual scheme to create a customised individual scheme with a nuance of ceramic finishes for both classical and modern tastes utilising colour and geometric ceramic decoration. The uniqueness of the ability to create endless colour textures gives you the possibility to develop your own character and philosophy. Texture, therefore, offers an individual concept to create your own personal space and colour scheme. The multiplicity of decoration possibilities gives rise to the name Texture enhancing both the design and structure of this project.

parquet

Texture di Olympia Ceramica sottolinea la nuova concezione di bagno inteso come spazio personale e suggestivo contestualizzato nella fantasia dei colori.

La possibilità di enfatizzare la personalizzazione dell'ambiente, è oggi ancora più ampia e mirata grazie all'unione di Texture + Parquet.

Parquet, con l'utilizzo di tecnologie innovative applicate alle specie legnose più pregiate, rende il prodotto completamente impermeabile e unisce modernità e tradizione, calore ed eleganza, rendendo l'ambiente da bagno unico ed esclusivo.

Texture by Olympia Ceramica is a revolutionary concept in both colour and design for the bathroom, created specifically for those who want to personalise their living space in a totally unique way.

Texture + Parquet adds the finishing touch to this innovative collection.

Parquet flooring with its innovative technological advances together with the finest quality wood is at home in either a modern or a traditional setting.

The timber is completely "water proof".

crystal

La serie Crystal di Olympia si ispira alle molteplici sfaccettature del cristallo e alla preziosità del diamante: superfici inclinate si incontrano dando vita al volume dei prodotti, che si collocano idealmente in un ambiente elegante e raffinato.

La collezione Crystal viene enfatizzata dalla texture platino, che accentua lo slancio della linea e impreziosisce la composizione, creando un ambiente di classe dallo stile unico e ricercato.

Inspired by the natural crystal formation of precious stone comes our latest creation Crystal. Like the clarity of diamond this series reflects from its multi-faceted profiles an elegant design to fit the most sophisticated space.

The Crystal Collection can be further enhanced with the addition of the metallic finish platinum, from our "texture" series making this exclusive nuance totally unique and a bathing experience that is truly chic.

PROJECT WATERISLIFE

Lo sapevi?...

Il 20-30% dei consumi domestici ha luogo con lo scarico del WC e ogni qualvolta si aziona, si consumano quasi 10 litri d'acqua. Senza acqua nessuna forma di vita è possibile, è un bene d'assoluta necessità che diventa sempre più scarso con il passare del tempo. L'acqua oggi a disposizione è pari a circa un terzo di quella disponibile negli anni '50 e tra cinquanta anni sarà ulteriormente dimezzata, inoltre per ogni litro d'acqua potabile, almeno otto risultano contaminati dall'attività umana. Ci si pone, per cui, una domanda importante: come contribuire in prima persona a migliorare questa situazione? Di fronte ad un quadro tutt'altro che roseo, oltre ad avvicinarsi al rubinetto con maggiore rispetto, Olympia Ceramica fa delle scelte che fanno la differenza in termini di impatto ambientale.

Da sempre sensibile alla necessità di salvaguardare questo bene prezioso, Olympia Ceramica con il Progetto WATER IS LIFE si dimostra azienda-esempio nel mercato perchè essere leader significa soprattutto percorrere strade necessarie al benessere di tutti. Un risparmio idrico intelligente eleva la qualità del prodotto, questa è la nostra missione.

Do you know?...

Toilet Flushing is responsible for 20-30% of domestic water consumption, using almost 10 litres each time. Water is absolutely essential and no form of life can't exist without it but unfortunately the shortage is increasing over time. Nowadays water availability is about one third of that with the 1950's and it will be probably be halved again within the next 50 years. Moreover, for each litre of drinking water at least eight are contaminated by human activities. We have only one important question to ask ourselves: "how can we contribute to improve this situation?" Faced with this worrying state, Olympia Ceramica chooses to make the difference in terms of environment as well as using the tap with greater respect. Olympia has always been aware of the need to preserve this precious element and for this reason we have created our new WATER IS LIFE project. Olympia wants to become a fore runner in this field because being a leader means above all protecting people's welfare. Saving water intelligently raises the quality of products and this is our mission.

ISTRUZIONE PER L'INSTALLAZIONE DEI PIATTI DOCCIA SHOWER TRAY INSTALLATION INSTRUCTIONS

Fase 1

Predisporre lo scarico in relazione al foro della piletta e alla posizione voluta nel locale. Realizzare i punti d'appoggio usando malta magra o collante a basso potere adesivo in corrispondenza degli angoli e al centro.

Step 1

Choose shower position and install drainage piping to line up with shower tray drain. Make five support points in the center and in each of the four corners using lean cement or low-strenght adhesive.

MALTA MAGRA
LEAN MORTAR
MAGERMORTEL
MORTIER MAIGRE
MORTERO CON PEGUA ARENA

Fase 2

Tra il piatto doccia e la malta interporre un foglio di plastica comune o semplice carta, per evitare che le due parti si incollino.

Step 2

Place plastic or paper between the shower base and the mortar to prevent adhesion.

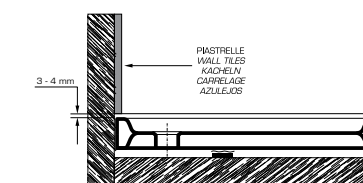

FOGLIO DI PLASTICA
PLASTIC
KUNSTSTOFFFOLIE
FEUILLE DE PLASTIQUE
LAMINA DE PLASTICO

Fase 2

Alloggiare il piatto doccia tenendo conto dello spessore del rivestimento a parete. Controllare il perfetto posizionamento orizzontale con l'aiuto di una livella. Allacciare la piletta allo scarico e verificare l'assenza di perdite.

Step 2

Position the shower base considering for the thickness of wall tiles. Use a level to check shower base position. Connect drain and check for leaks.

OLYMPIA CERAMICA: UN'INDUSTRIA ITALIANA PER UN MERCATO MONDIALE

OLYMPIA CERAMICA, con uno stabilimento che sorge su un'area di 40.000 mq., produce sanitari per stanze da bagno fin dal 1979. La produzione ha uno standard qualitativo, valido per tutti i modelli, molto elevato.

Le materie prime sono le più selezionate offerte dal mercato.

I prodotti in vitreous-china (wc, bidet, lavabi, colonne) o fine fire-clay (lavatoi e piatti doccia), sono cotti in forno a tunnel alla temperatura di 1280° C.

Gli smalti sono particolarmente curati, resistenti e brillanti e i colori sono omogenei e costanti nel tempo.

I prodotti sono ergonomicamente e funzionalmente validi, conformi ai più elevati standard di qualità vigenti negli oltre 40 Paesi in cui OLYMPIA è presente sul mercato.

OLYMPIA CERAMICA S.R.L. is a Company that produces porcelain for sanitary use since 1979.

The production has an only qualitative standard, valid for all models, very elevated.

The products in vitreous-china (wc, bidet, washbasin, pedestal) or fine fire-clay (sinks & shower trays) are fired in an oven tunnel to the temperature of 1280° degrees.

The enamels are particularly good, strong and shining and the colours are very homogeneous and constant.

OLYMPIA CERAMICA S.R.L. produces many different ranges and many solutions for the bathroom of every people, in the beyond 40 countries in which Olympia is present on the market.

The establishment of the OLYMPIA CERAMICA S.R.L. is in a site of 40.000 sqm, in Corchiano (VT) Italy.

The worker have an excellent level of specialization.

GARANZIA DI QUALITÀ - WARRANTY

LAVORAZIONE DEL PRODOTTO EFFETTUATA A MANO

PRODUCTION MADE BY HAND

COLORI PESI E MISURE sono da considerarsi prettamente indicativi

COLOURS, SIZES AND WEIGHT are indicative only

Pesi e misure potranno subire variazioni di circa 1% +/- dovute ad usura stampi o modifiche delle caratteristiche tecniche, relative alle materie prime che compongono l'impasto.

Weight and measurements indicated could undergo a variation of about 1% +/- due to the use of the moulds or to small variation of raw materials technical characteristic on the mixture.

I MATERIALI USATI

Oly-Cer - Porcellana sanitaria per sanitari

Miscela di argilla bianca, caolino, quarzo e feldspato accuratamente selezionati, i migliori reperibili sul mercato. La miscela viene lavorata fino ad assumere la consistenza di massa ceramica atta a formare il corpo del manufatto. Il manufatto viene smaltato a crudo e sottoposto a monocottura in forni a tunnel continui fino a raggiungere una temperatura di 1280° C in camera centrale. Dopo la cottura la massa ceramica si presenta bianca compatta, con un assorbimento inferiore a 0,5%, inattaccabile dagli acidi e dagli alcali, secondo le vigenti normative UNI.

Nel corso della fase produttiva tutti i sanitari Olympia sono sottoposti a controlli sulla lavorazione degli impasti e degli smalti, sulla regolarità di formatura, sulla funzionalità e sulla robustezza (con prove di carico fino a 150 kg. per i lavabi e fino a 400 kg. per vasi e bidet).

Lo Smalto Oly-Smalt è costituito da caolino, quarzo, feldspato, silicato di zirconio e ossido di stagno. Durante la fase di monocottura fa unico corpo con il supporto ceramico del singolo apparecchio sanitario. Se colorato, contiene ossidi metallici e pigmenti.

Oly-clay - Gres fine porcellanato (fine fire-clay) per lavabi arredo e piatti doccia

Miscela di chamotte, argilla bianca, caolino, quarzo e feldspato accuratamente selezionati, i migliori reperibili sul mercato. La miscela viene lavorata fino ad assumere la consistenza di massa ceramica atta a formare il corpo del manufatto. Il manufatto viene smaltato a crudo e sottoposto a monocottura in forni a tunnel continui fino a raggiungere una temperatura di 1280° C in camera centrale. Dopo la cottura la massa ceramica si presenta a grana media fine, con un assorbimento inferiore al 9%.

L'INGOBBIO ha gli stessi componenti usati per la massa ceramica.

Lo Smalto OLY-SMALT è lo stesso usato per la porcellana sanitaria.

Garanzia 10 anni - Warranty 10 years

La garanzia copre esclusivamente i prodotti in materiale ceramico, su cui si riscontrino difetti estetici, dimensionali e funzionali, causati da errata fabbricazione, verificati e confermati dai nostri tecnici dell'Assistenza post-vendita.

La copertura della garanzia decorre dalla data d'acquisto del prodotto da parte dell'utente finale, comprovata da regolare documento fiscale.

Lavorazione del prodotto effettuata a mano

Production made by hand

Colori, Pesi e Misure sono da considerarsi prettamente indicativi

Colours, sizes and Weight are indicative only

Pesi e misure potranno subire variazioni di circa 1% +/- dovute ad usura stampi o a modifiche delle caratteristiche tecniche, relative alle materie prime che compongono l'impasto.

Weight and measurements indicated could undergo a variation of about 1% +/- due to the use of the moulds or to small variation of raw materials technical characteristic on the mixture.

The establishment of Olympia ceramica is to around 60 km. to north from Rome and is a speedy attainable through important street of communication: S.S. n.2 Cassia, S.S. n.3 Flaminia, Highway A1 (tollgate Magliano Sabina).
