STORIA DI UNA TRASFORMAZIONE

STORY OF A TRANSFORMATION

FATTO IN ITALIA,
CON LA
TRADIZIONE
NEL CUORE
E LA TECNOLOGIA
NELLE MANI

La nostra storia comincia nel 1973, quando nasce M&Z. E' una piccola fabbrica di rubinetterie, nel cuore di un territorio destinato nel tempo a diventare un distretto industriale specializzato, senza paragoni al mondo.

Nei vent'anni successivi è una continua trasformazione. Gli ingredienti sono semplici: esperienza umana, ricerca e innovazione, per migliorare la qualità, sempre di più. I numeri crescono, i mercati esteri chiamano. Nel 2003 nasce il brand M&Z: l'azienda è pronta a rappresentare sui mercati mondiali il meglio del design italiano.

Oggi M&Z Rubinetterie è un'eccellenza del settore, oltre 140 donne e uomini con il dovere della qualità e l'orgoglio del vero "made in Italy".

MADE IN ITALY, MELTING
TRADITION WITH TECHNOLOGY

Our story begins in 1973, when M&Z is founded. It was a small faucet factory, in the heart of an area that was going to become a specialized industrial district.

The next two decades involved continuous changes, thanks to a mix of human experience, research and innovation in order to consistently

improve quality. Turnover increase backing a growing demand from foreign markets.

The M&Z brand was launched in 2003: the company was ready to represent the best of Italian design on the global markets. M&Z Rubinetterie is now a leading faucet manufacturer that takes great pride in quality.

M&Z

RUBINETTERIE

DAL 1973 NEL
CUORE DEL DISTRETTO
DOVE NASCE
LA RUBINETTERIA
ITALIANA

SINCE 1973 IN THE HEART OF
THE DISTRICT WHERE ITALIAN
FAUCET INDUSTRY WAS BORN

TRADITION

TECHNOLOGY

PASSION

Lo stabilimento produttivo di M&Z,
a Bolzano Novarese, si estende su 13.000 mq.
Il solo magazzino misura 8.000 mq.

“

ESSERE
“ARTIGIANI
DELL’INNOVAZIONE”,
CON ESPERIENZA
E PASSIONE

M&Z's production plant
in Bolzano Novarese covers an area of 13,000 sqm,
including an 8,000 sqm warehouse.

“INNOVATIVE ARTISANS”
WITH EXPERIENCE
AND PASSION

”

Il nostro cuore pulsante è la fabbrica, somma
equilibrata di due elementi imprescindibili e
complementari. Prima di tutto le persone: con
la loro energia, meticolosità e precisione mania-
cale. Poi la tecnologia: macchine all'avanguardia
che fissano in alto i nostri standard di qualità,
un'asticella che vogliamo spostare, giorno dopo
giorno, sempre più in alto. Questo mix tra mac-
chinari moderni ed energia umana è il nostro
modo di “fare fabbrica” e di “fare impresa”.

Our beating heart is the factory, which harmoniou-
sly combines two indispensable, complementary
elements. First of all, people: with their energy,
meticulousness and obsessive precision.
Then technology: state-of-the-art machines that
ensure high quality standards. Every day, we
want to raise this bar even higher.
This mix of modern machinery and human ener-
gy is our way of “running a factory” and “running
a business”.

DESIGN ACCESSIBILE

FRIENDLY DESIGN

I prodotti M&Z non devono essere solo belli, ma anche affidabili, pratici, accessibili.

Il nostro lavoro di ogni giorno è volto a realizzare rubinetti che arredino con personalità, ma senza protagonismi.

Oggetti che entrino nelle case dei nostri clienti e portino con sé un valore non effimero, che si rinnovi nel tempo.

DESIGN COMBINED
WITH SOLIDITY
AND FUNCTIONALITY

L'ESTETICA
SI CONIUGA
CON SOLIDITA'
E FUNZIONALITA'

M&Z products must not only be beautiful, but also reliable, practical and accessible.

Our daily work focuses on making faucets that give personality to a room, not stealing the spotlight though. Items that bring long-term benefits to our customers.

ACCIAIO INOSSIDABILE
STAINLESS STEEL
ACIER INOXYDABLE
EDELSTAHL
ACERO INOXIDABLE

M&Z Rubinetterie realizza rubinetteria in acciaio inossidabile AISI316L con caratteristiche eccezionali.

La superficie dei nostri rubinetti in acciaio inossidabile ha una spontanea tendenza ad autopassivare, quindi a formare un film sottilissimo che ne protegge la superficie dagli agenti esterni.

Dal punto di vista dell'ecologia, l'acciaio è riciclabile al 100% ed è in assoluto il materiale più riciclato al mondo.

EXPO316

L'acciaio è inoltre un materiale permanente, può essere riciclato all'infinito senza perdere nessuna delle preziose proprietà originarie. Infine l'Italia è al primo posto in Europa per volumi di riciclo dei rottami ferrosi.

L'utilizzo dell'acciaio per i nostri rubinetti ci pone all'avanguardia nel rispetto dell'ambiente.

M&Z Rubinetterie manufactures AISI 316L taps, a stainless steel with wonderful features.

The surface of our stainless steel faucets has a strong tendency to self-pass, thus spontaneously forming a tiny film that protects the same surface from external agents.

From an environmentally friendly point of view, stainless steel is 100% recyclable and is by far the most recycled material in the world.

Steel is also a permanent material, so it can be recycled indefinitely without losing any of the precious original properties. Finally, Italy ranks first in Europe for ferrous scrap recycling volumes.

For this reason, our steel made taps put us at the forefront of environmental protection.

Una serie che si presenta come cifra dello stile. Il capitello inteso come parte strutturale di una colonna nell'arte classica e anche come condensato ideale del concetto stesso di eleganza. La maniglia godronata garantisce una sensazione piacevole al tatto e massima ergonomia all'uso.

Disponibile nelle finiture:

Cromo (CHR),

Grafite (GRA)

e 5 colori per le maniglie.

A series that is the emblem of style.

Capital (in Italian "Capitello") intended as the structural part of a column in classical art and also as the ideal condensation of the concept of elegance itself. The knurled handle gives a pleasant touch and maximizes the grip.

Available finishings:

Chrome (CHR),

Graphite (GRA)

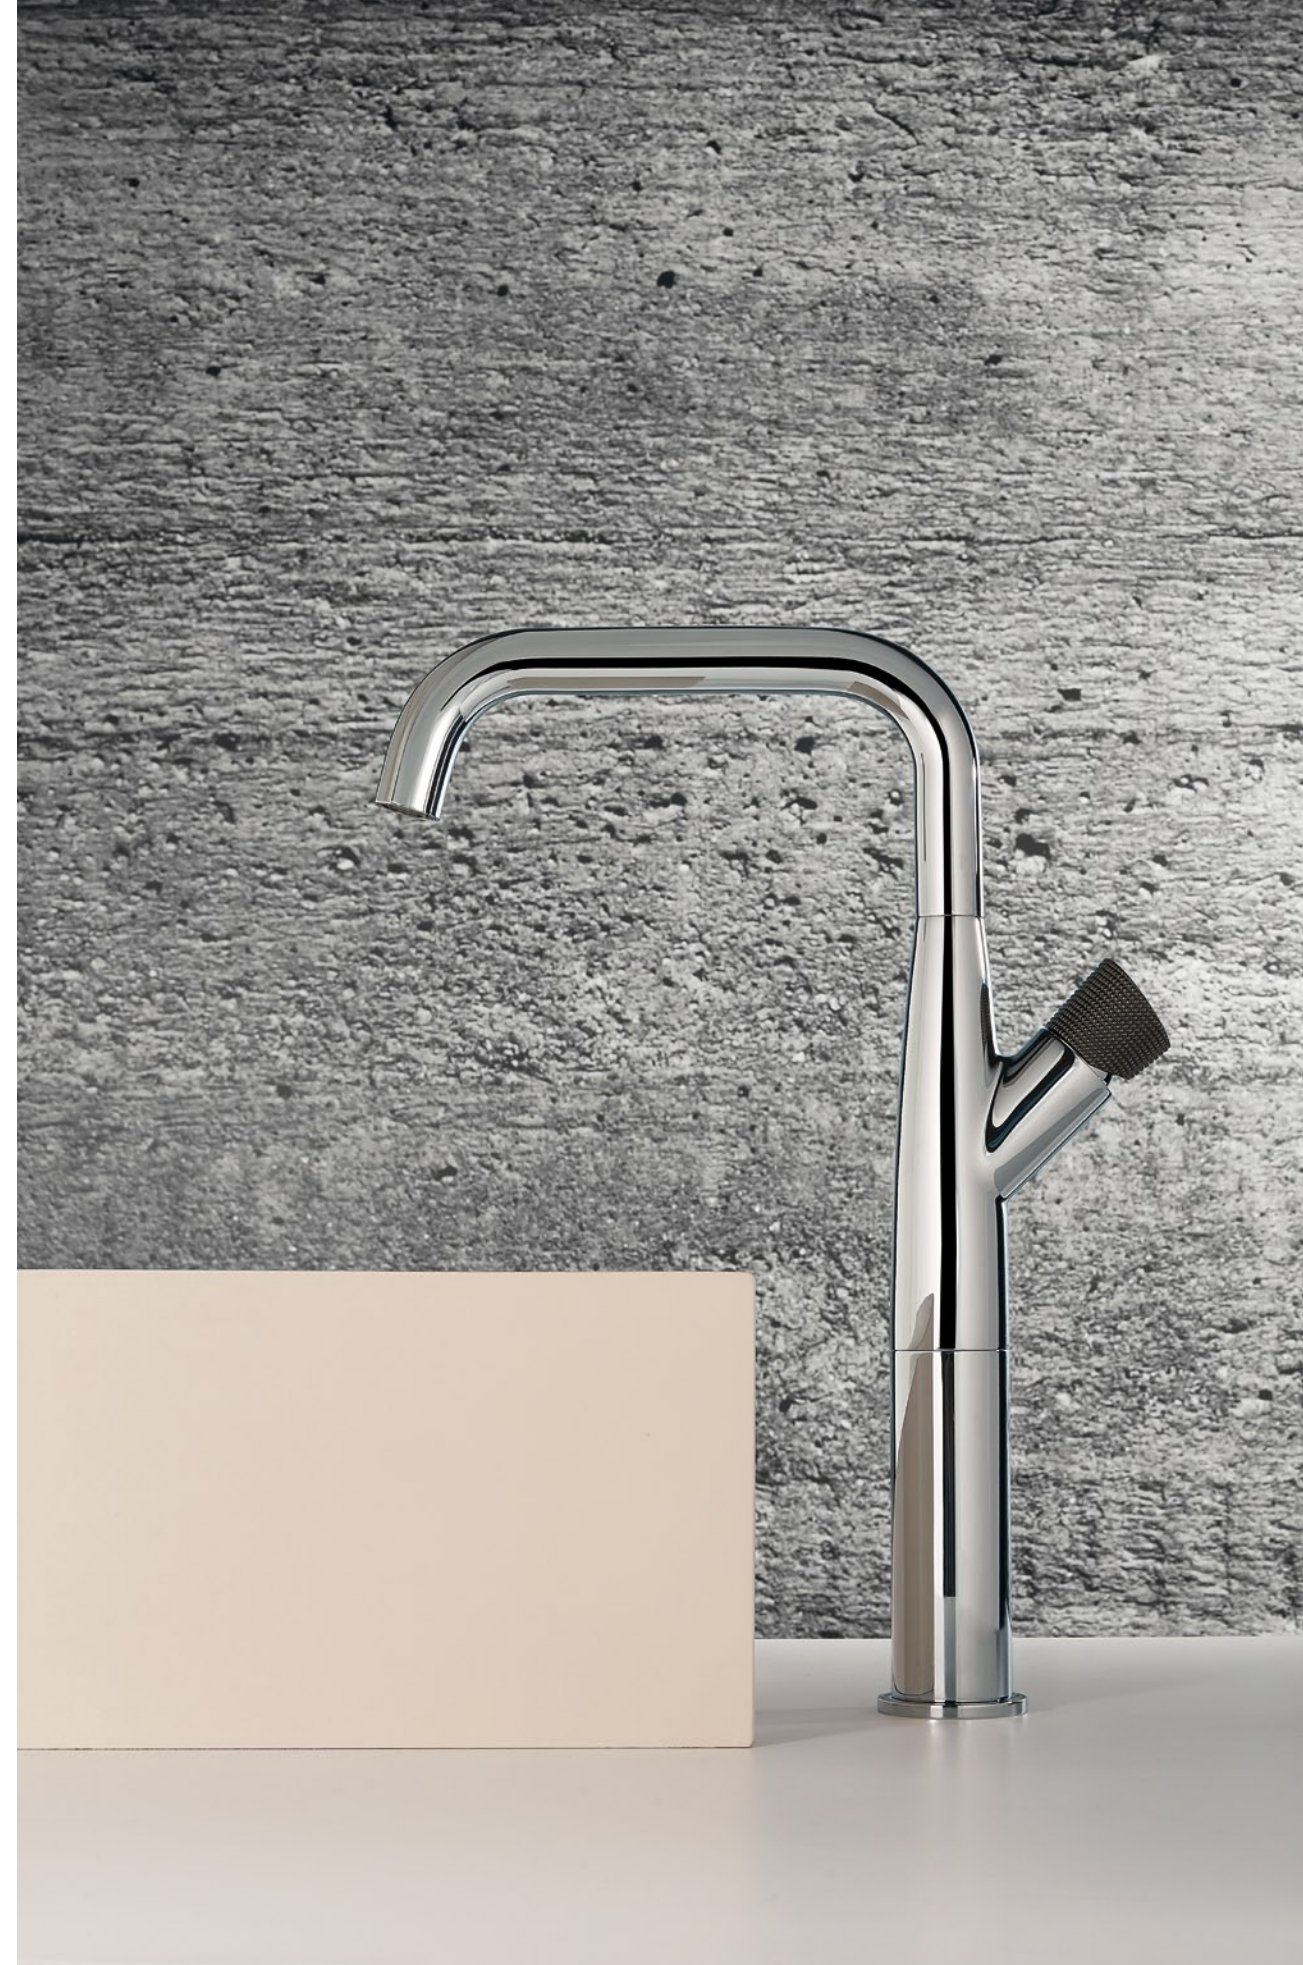

plus 5 handle colours.

Minimale perché non ha bisogno di nulla da aggiungere, funzionale perché è la forma del rubinetto monocomando in quanto tale, che altro?

Disponibile nelle finiture:

Cromo (CHR),

Nero Opaco (COAL),

Cromo Spazzolato (ACR),

Grafite (GRA),

Bianco Opaco (ARCTIC).

Minimal because it needs nothing adding to it, functional because it totally embodies the shape of the single-lever tap. What else?

Available finishings:

Chrome (CHR),

Matf Black (COAL),

Brushed Chrome (ACR),

Graphite (GRA),

Matf White (ARCTIC).

Puntare in alto, elevarsi, la serie Vetta si distingue per alzata di “mano”, prende una posizione e lo fa con la semplice lineare eleganza di un prodotto dalle linee pulite e al tempo stesso uniche.

Disponibile nelle finiture:

Cromo (CHR).

VETTA

Going upwards, the Vetta series distinguish itself by raising its handle up right, takes a stand and does so with the simple linear elegance of a product with clean lines and at the same time unique.

Available finishings:

Chrome (CHR).

VET00200

VET00204

Maestosa e vibrante come le onde del mare,
Marina sa essere rigorosa linearità addolcita
dalle curve.

Disponibile nelle finiture:

Cromo (CHR).

As majestic and vibrant as the waves on the sea,
Marina is all about formal linearity softened by
curves.

Available finishings:

Chrome (CHR).

MARINA

MAR00201

MAR00500

Disegnato con attenzione, nessuna delle sue linee è dovuta al caso, ognuna delle sue geometrie è frutto di un pensiero rigorosamente creativo. Disponibile nelle finiture:
Cromo (CHR)

Carefully designed, with nothing left to chance, its entire geometry is the outcome of a highly creative thought process. Available finishings:
Chrome (CHR)

NEW GEOMETRY

NGM00202

NGM00201

Un prodotto capace di essere sempre di tendenza reinventandosi in nuove soluzioni dal potenziale infinito. La classica serie dalle forme rettilinee. Disponibile nelle finiture:
Cromo (CHR).

Contemporary, the straight lines that never go out of fashion, reworked in new solutions with infinite potential. The iconic range of linear shapes. Available finishings:
Chrome (CHR)

CINQUE

QOD26701

CNQ00240

Semplicemente ciò che ci si aspetta da un rubinetto: solido, proporzionato e adatto a qualsiasi soluzione decorativa.

Disponibile nelle finiture:

Cromo (CHR).

Just what you expect from a tap: solid, proportioned and suitable for any kind of decor.

Available finishings:

Chrome (CHR).

VENTURA

VNR00201

VNR00204

Classicamente moderna, la miscelazione ottenuta per singole fasi, una rubinetteria minimale capace di arredare gli ambienti classici e quelli moderni, unica.

Disponibile nelle finiture:

Cromo (CHR)

Classically modern, with single phase mixing, a minimal unique mixer that goes beautifully with both classic and modern decor.

Available finishings:

Chrome (CHR)
