note notes

I decori sono imballati misti nelle scatole ed è possibile la ripetizione di più soggetti nella stessa scatola.

Decorations are packed on a random basis and it is possible the replication of some decors into the same box.

Les décors sont emballés mélangés dans les cartons et il est possible la répétition de plusieurs sujets dans le même carton.

I decori non hanno un verso di posa e non creano figure composte se accostati insieme.

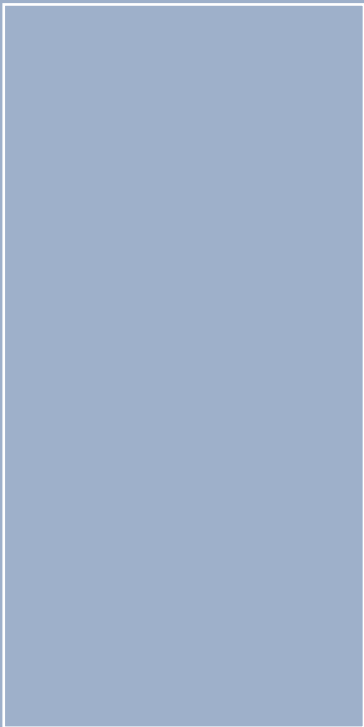

The decorations do not have a laying direction and do not create composed figures when placed together.

Les décorations n'ont pas de bord de pose et ne créent pas de figures composées lorsqu'elles sont assemblées côte-à-côte.

note notes notes

- * È OBBLIGATORIO posare il Terminale a Elle Monolitico SFALSATO essendo di dimensione diversa rispetto alle piastrelle.
- * It is MANDATORY to lay Terminale a Elle Monolitico STAGGERED (not following same joint) due to the difference in dimension between tiles and special pieces.
- * Le terminal en L monolithique étant de dimension différente par rapport aux carreaux, IL EST OBLIGATOIRE de le poser DÉCALÉ.
- * Trattasi di materiale coordinato quindi la tonalità è abbinabile al fondo.
- * The material is coordinated, so the shade can match to the floor.
- * Il s'agit de matériau coordonné, donc la nuance peut être accouplée au fond.

POSA SOPRAELEVATA /
INSTALLATION onto FLAT SURFACES (raised laying)

Ad oggi non esiste una normativa specifica per i pavimenti sopraelevati da esterno, si rimanda pertanto al professionista progettista un'attenta valutazione dei requisiti del progetto.
Cotto Petrus prescrive l'adizione di supporti aggiuntivi sotto le piastrelle, come da schema sotto riportato.
To date, there is no existing regulatory standard regarding outdoor raised floors. Therefore, the Customer/Designer/Project Manager has to arrange for a careful assessment of the project and its requirements.
Cotto Petrus recommends the adoption of additional supports under the tiles, as per diagram below.

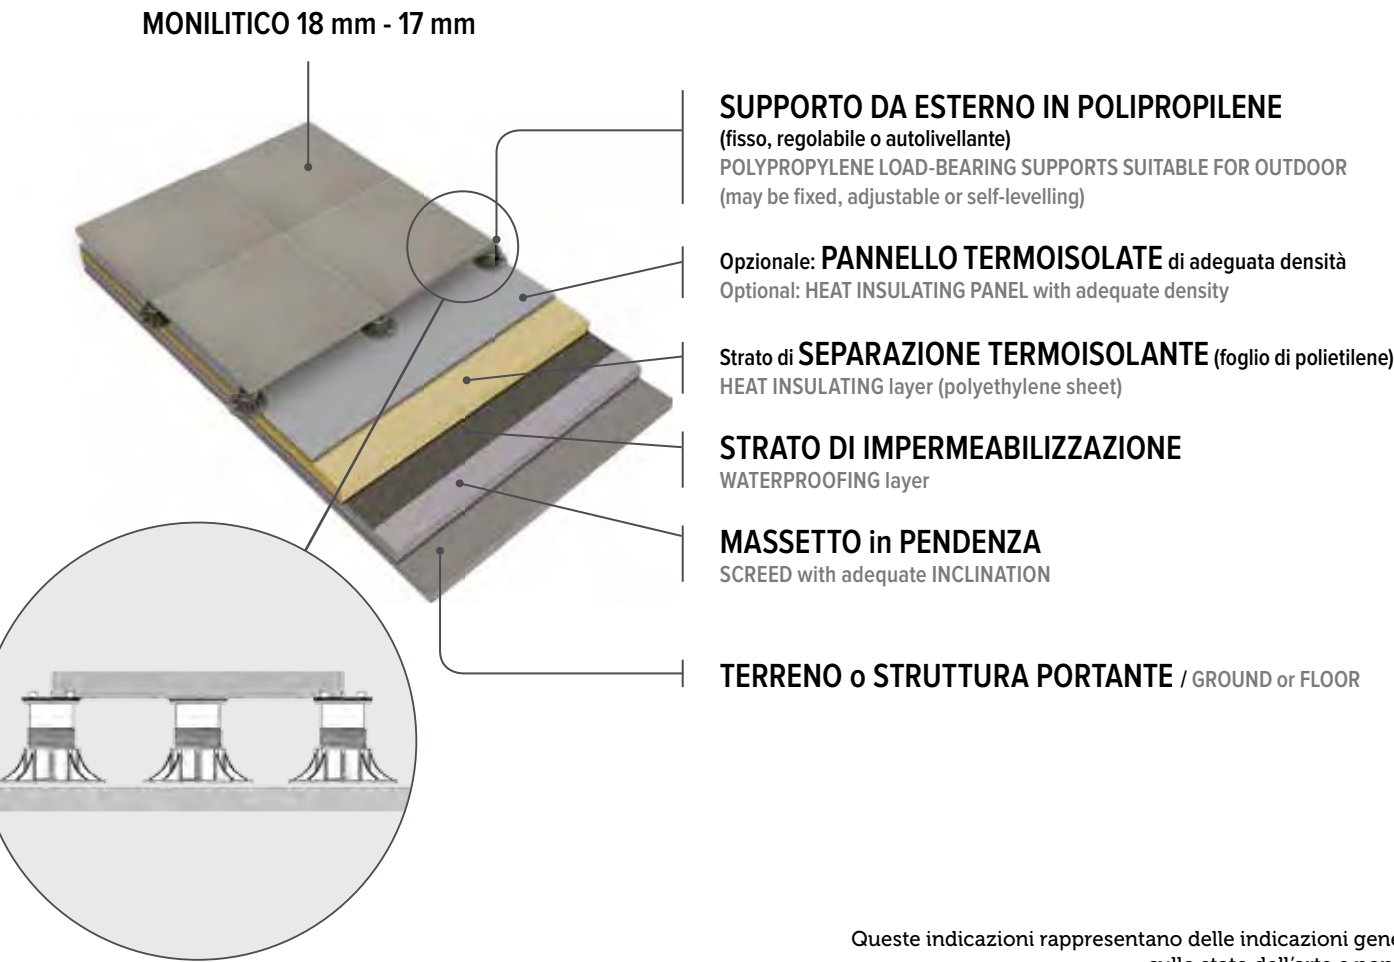

45x45 - 60x60 - 61x61 - 81x81

40,5x81

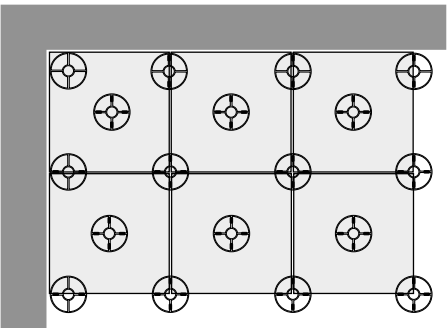

Per maggiore sicurezza e a tutela dell'utente, Cotto Petrus richiede di impostare un'altezza di sopraelevazione non superiore a 10 cm.
For grater safety and protection of the user, Cotto Petrus requires an overlay height not exceeding 10 cm.

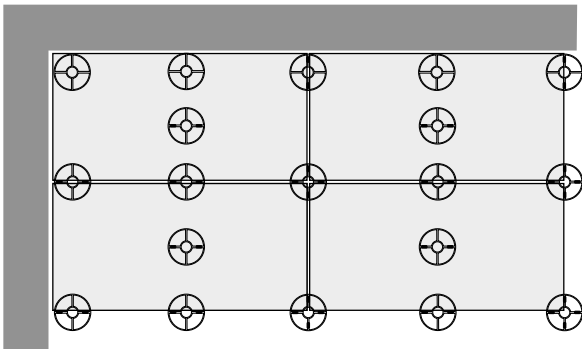

Queste indicazioni rappresentano delle indicazioni generali basate sullo stato dell'arte e non vincolanti.
The following tips and suggestions are not binding for the manufacturer.

POSE SURÉLEVÉE / VERLEGUNG ALS DOPPELBODEN

Il n'existe pas aujourd'hui de norme spécifique pour les sols surélevés extérieurs. Par conséquent, s'adresser au concepteur professionnel pour une évaluation minutieuse des conditions du projet.
Cotto Petrus préconise d'utiliser des plots supplémentaires à placer sous la dalle comme indiqué sur les images ci-dessous.
Bisher gibt es keine spezifischen Vorschriften für Doppelböden für den Außenbereich, der für die Planung zuständige Fachmann ist daher für eine sorgfältige Bewertung der Projektvoraussetzungen verantwortlich.
Cotto Petrus empfiehlt die Benutzung von Stelzlager unter der Platte wie unten im entsprechenden Bild dargestellt.

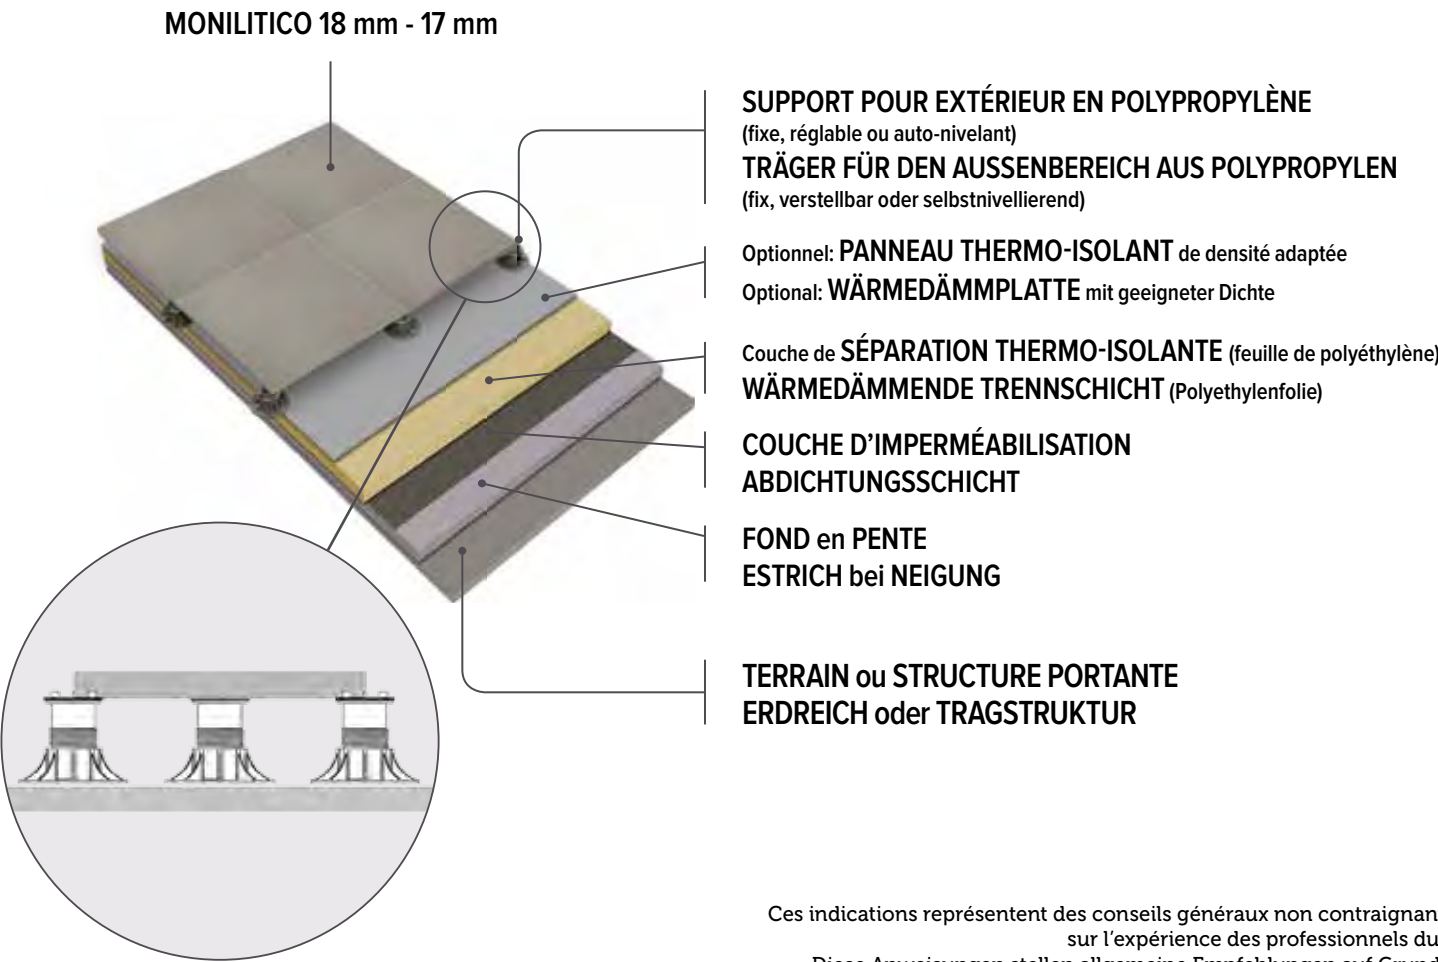

45x45 - 60x60 - 61x61 - 81x81

40,5x81

Pour améliorer la sécurité et la protection de l'utilisateur, Cotto Petrus préconise de définir à 10 cm la hauteur maximale de surélévation.
Zur erhöhten Sicherheit und zum Schutz des Benutzers fordert Cotto Petrus eine maximale Erhöhung von 10 cm.

Ces indications représentent des conseils généraux non contraignants, basés sur l'expérience des professionnels du secteur.
Diese Anweisungen stellen allgemeine Empfehlungen auf Grundlage des letzten Stands der Technik dar, die nicht bindend sind.

Consigli di Posa, Pulizia e Manutenzione

advice for intallation, cleaning and maintenance conseils de pose, de nettoyage et d'entretien

S.A.P. Distanziatore Livellante

La Soluzione per una Posa Perfetta

Gentile cliente/posatore,
le aziende ceramiche hanno immesso sul mercato pavimenti e rivestimenti di grandi formati rettificati che necessitano di una posa più specifica e accurata.
Il **distanziatore livellante S.A.P.** è nato per migliorare la messa in opera delle piastrelle e semplificare il lavoro del posatore ottenendo così un prodotto finito esteticamente perfetto.

Per questo motivo, **COTTO PETRUS** consiglia di posare con il **distanziatore livellante S.A.P.** per prevenire gli inconvenienti che possono presentarsi durante la posa.

In particolare, il **distanziatore livellante S.A.P.:**

- Allinea piastrelle di diverso spessore
- Elimina il dislivello tra le piastrelle
- Assicura una fuga minima di 1 mm
- Non necessita di alcuno strumento aggiuntivo
- Diminuisce le contestazioni
- Risultati professionali

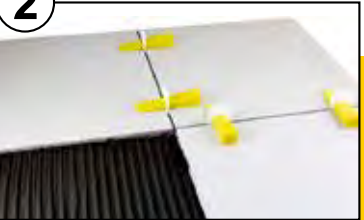

Per maggiori informazioni, visita il sito www.andalsystem.it oppure contatta i nostri tecnici **0962 431436 - info@andalsystem.it**

1

Posizionare due o più tiranti al di sotto della piastrella a circa 10 cm dagli angoli. Posizionare la piastrella successiva.

2

Far scivolare il cono all'interno del tirante, spingendo con forza fino all'allineamento delle piastrelle.

3

Una volta indurito il collante sarà sufficiente un calcio in linea di fuga sul tirante per eliminarlo.

FOR THE ATTENTION OF THE INSTALLER

S.A.P. LEVELING SPACERS:
THE BEST SOLUTION FOR A PERFECT TILE INSTALLATION

Dear customer/installer,
large-format rectified porcelain produced by ceramic factories needs a more precise and accurate tile installation.

The **SAP leveling spacer** is designed to improve tile installation and oversimplify the work of the installer and achieve an excellent result. For all these reasons, **COTTO PETRUS** recommends to install tiles with the **SAP leveling spacer** in order to prevent inconveniences which may occur during tile installation.

In particular, the **SAP leveling spacer:**

- Aligns tiles of different thicknesses,
- Virtually eliminates lippage,
- Allows a minimum joint of 1 mm
- No special tools are required
- Decreases call-backs due to poor installation
- Professional results

For further information, please visit our website www.andalsystem.it or contact our specialists **0039 (0)962 431436 - info@andalsystem.it**

FÜR FLIESENLEGER

SYSTEM S.A.P. ZUM NIVELLIEREN VON FLIESEN BEI DER VERLEGUNG

COTTO PETRUS empfiehlt Andalsystem:
Mit diesem **SAP System** ist es möglich Fliesen absolut Plan zu verlegen. Überzähne werden zuverlässig vermieden. Die Anwendung ist einfach und schnell. Man spart Zeit und erhält einen perfekt verlegten Boden, bei geringem Kostenaufwand.

Besonders vorteilhaft erweist sich bei großformatigen und kalibrierten Fliesen.
Die Zuglaschen (Weiß) werden bei der Verlegung in die Fugen (1 mm) eingesetzt.
Nach Einlegen der benachbarten Fliese drückt man den Keil (Gelb) mit der Spezialzange durch die Lasche, bis die Oberfläche beider Fliesen auf gleicher Ebene ist.
Nach dem Erhärten des Klebers wird die Lasche an der Sollbruchstelle einfach abgebrochen.
Der Keile kann wiederverwendet werden.
Das System ist nach dem Ausfugen nicht mehr erkennbar.

Info unten www.andalsystem.it oder **0049 (0) 151 11 15 77 57 - info@andalsystem.it**

A LA ATENCIÓN DEL ALICATADOR

SEPARADORES DE NIVELACIÓN S.A.P.:
LA MEJOR SOLUCIÓN PARA UNA PERFECTA COLOCACIÓN

Estimado cliente/alicatador,
las empresas de cerámicos han introducido en el mercado pavimentos y revestimientos de gran formato rectificado que necesitan una colocación más precisa.

El **separador de nivelación S.A.P.** es un producto diseñado para mejorar la colocación de las baldosas y simplificar el trabajo del alicatador, así que logre un resultado excelente. Por este motivo, **COTTO PETRUS** recomienda colocar con el **separador de nivelación S.A.P.** para prevenir los inconvenientes que pueden verificarse durante la colocación.

En particular, el **separador de nivelación S.A.P.:**

- Nivela baldosas de diferente espesor;
- Elimina el desnivel entre las baldosas;
- Permite una junta mínima de 1 mm;
- No necesita alguna herramienta adicional;
- Disminuye las contestaciones debidas a una incorrecta colocación;
- Resultados profesionales.

Para mayor informaciones, por favor visite nuestro sitio web www.andalsystem.it o contacte nuestros especialistas al número **0039 (0)962 431436 - info@andalsystem.it**

À L'ATTENTION DE L'INSTALLATEUR

CROISILLONS AUTONIVELANTS S.A.P.:
LA MEILLEURE SOLUTION POUR POSER VOTRE CARRELAGE

Cher client/installateur,
Les sociétés de carreaux ont réalisé carreaux de grand format rectifié que exigent de une pose plus précise.

Le **croisillon autonivelant S.A.P.** est développé pour améliorer la pose des carreaux et simplifier le travail de l'installateur, obtenant un résultat excellent.

Pour toutes ces raisons, **COTTO PETRUS** préconise le **croisillon autonivelant S.A.P.** afin de prévenir problèmes que peuvent se produire pendant la pose des carreaux.

En particulier, le **croisillon autonivelant S.A.P.:**

- Est idéal pour une utilisation avec des carreaux de différentes épaisseurs;
- Permet d'éliminer tout décalage de niveau entre les carreaux;
- Permet un largeur minimale du joint de 1 mm entre les carreaux;
- Ne nécessite aucun outil particulier;
- Diminue rappels dus à une mauvaise installation;
- Résultats professionnels.

Pour obtenir d'autres renseignements, veuillez consulter notre site web à l'adresse www.andalsystem.it ou prendre contact avec nos collaborateurs au **0039 (0)962 431436 - info@andalsystem.it**

Consigli di Posa, Pulizia e Manutenzione

advice for intallation, cleaning and maintenance conseils de pose, de nettoyage et d’entretien

Consigli di posa

Non si accettano reclami relativi a materiale già posato.

Per una posa eseguita a regola d’arte è richiesta, in generale, l’osservanza dei seguenti criteri:

1. Resistenze adeguate del sottofondo;
2. Rispetto dei tempi di maturazione del massetto;
3. Posa in ambienti di sole civili abitazioni.

Applicazioni diverse dovranno essere sottoposte a verifica di **Cotto Petrus srl**;

4. Rispetto degli eventuali giunti strutturali presenti;
5. Realizzazione di giunto elastico perimetrale, per ogni elemento in elevazione, con limitazione delle superfici continue a non oltre 50-60 m (25-30 m in presenza di grandi vetrate);
6. Utilizzo di opportuno adesivo di classe C2 (per interno) o C2E (per esterno) secondo EN 12004, utilizzando la tecnica della doppia spalmatura;
7. Utilizzo di idoneo stucco avendo cura di effettuare prove preventive di pulibilità in caso di stuccature a contrasto;
8. All’atto della posa prelevare piastrelle alternativamente da diverse scatole;
9. Controllare, prima della posa, tonalità, calibro e scelta.

Il prodotto rettificato consente anche di ottenere una superficie in cui la giunzione fra una lastra e l'altra è appena percettibile (minimo 2/3 mm). Nell'utilizzo del prodotto naturale si consiglia una fuga di 4/5 mm tra una lastra e l'altra.

Conseils de pose

Aucune réclamation portant sur des matériaux déjà posés ne sera acceptée. Pour une pose dans les règles de l’art, il convient d’une manière générale de respecter les conditions suivantes:

1. Résistance adaptée de la sous-couche;
2. Respect des temps de maturation de la chape;
3. Pose uniquement dans des habitations civiles.

Toute autre application sera soumise au contrôle de **Cotto Petrus srl**;

4. Respect des éventuels joints structurels présents;
5. Réalisation d’un joint élastique périphérique, pour chaque élément surélevé, avec limitation des surfaces continues à un maximum de 50-60 m (25-30 m en présence de grandes baies vitrées);
6. Utilisation d’une colle adaptée de classe C2 (pour intérieur) ou C2E (pour extérieur) conformément à la norme EN 12004, en utilisant la technique du double encollage;
7. Utilisation d’un ciment-joint adapté en prenant soin de vérifier préalablement qu’il peut être nettoyé en cas de joints en contraste;
8. Lors de la pose, prélever les carreaux en alternant entre différents paquets;
9. Avant de procéder à la pose, contrôler la teinte, le calibre et l’aspect du carreau.

Le produit rectifié permet également d’obtenir une surface où la jonction entre une dalle et l’autre est à peine perceptible (2/3 mm minimum). Lors de l’utilisation du produit avec surface naturelle, il est conseillé de respecter un joint de 4/5 mm entre chaque dalle.

Advice for intallation

We cannot accept complaints made after the material has been installed.

To achieve a state-of-the-art installation the following criteria must be observed:

1. Adequate sub-base resistance;
2. Respect of the slab setting times;
3. Installation in residential environments only.

Any different applications must be examined by **Cotto Petrus srl**;

4. Respect of any existing structural joints;
5. Realization of expansion joint for the perimeter, for all raised elements, with limitation of continuous surfaces to no more than 50-60 sqm (25-30 sqm in areas containing large window/glass installations or when used externally);
6. The use of a suitable C2 (for interior use) or C2E (for external use) adhesive according to EN12004, applied with the double spread coating technique;
7. The use of a suitable grout, checked and tested first, in the case of contrasting grout, and tested in a small area to verify that it can be effectively cleaned away;
8. During laying, pick tiles alternately from different boxes;
9. Check that the calibre, shade and sorting grade are correct before installing.

Rectified products also enable to obtain surfaces where joints are hardly perceptible (minimum 2/3 mm). For the natural finish, a joint of 4/5 mm is recommended between one slab and the next.

ENG

Lavaggio-protezione e manutenzione del gres porcellanato

ITA

1. Lavaggio dopo posa

Il lavaggio dopo posa è un una fase di fondamentale importanza

per tutti gli interventi successivi e per la manutenzione.

Con il lavaggio acido dopo posa si eliminano i residui di posa e il normale sporco di cantiere come: malta, colla, pittura, sporco da cantiere di varia natura... È bene sapere che oltre il 90% delle contestazioni in cantiere è dovuto ad un cattivo, o addirittura inesistente, lavaggio con detergente acido dopo posa.

Per questa operazione **Fila** propone **Deterdek**, detergente disincrostante acido che non sviluppa fumi nocivi e non aggredisce le fughe. Rimuove lo sporco da cantiere - malta, stucco, incrostazioni di varia natura. **Fila Deterdek** unisce all’azione disincrostante anche una efficace azione pulente. La pulizia di fine cantiere si esegue a completa stagionatura dello stucco cementizio

(almeno 36-48 ore), attenendosi scrupolosamente ai consigli di seguito riportati:

- Utilizzare **Fila Deterdek** diluito 1:5 (1 litro di Detredek in 5 di acqua possibilmente calda)
- Spazzare bene il pavimento quindi distribuire uniformemente la soluzione di **Detredek** diluito, utilizzando un normale spazzettone, mop-lavapavimenti (mocio) o uno straccio ruvido per ambienti residenziali oppure frizionando con monospazzola dotata di dischi con tampone di colore verde per grandi superfici;
- Lasciare agire per qualche minuto, in funzione dell’intensità dello sporco;
- Intervenire energicamente con spugna abrasiva tipo verde oppure con spazzolone con setole in nylon o nel caso di grandi superfici con monospazzola munita di disco verde e aspira liquidi.
- Raccogliere il residuo con stracci oppure con aspiraliquidi.

Resa: 1 litro/40 m² – diluizione 1:5.

Per rimuovere i residui di stucco epossidico consigliamo di utilizzare

lo specifico detergente **Fila CR10**.

Prima di eseguire la pulizia con il **Fila CR10** attendere i tempi di messa in esercizio del fugante utilizzato, attenendosi scrupolosamente ai consigli di seguito riportati:

- Stendere direttamente sulla superficie da pulire con una pennellessa, coprendo perfettamente tutti i residui di stucco;
- Lasciare agire per circa 30 minuti;
- Strofinare con spugna abrasiva o eventualmente spatola sui residui più consistenti. Per l'applicazione a pavimento è possibile intervenire con monospazzola utilizzando il disco più opportuno;
- Risciacquare con cura.
- Nel caso di residui più tenaci ripetere l'applicazione seguendo le stesse modalità e lasciando agire più a lungo il prodotto.

2. Protezione tipo levigato

Con la protezione si:

- Impermeabilizza la superficie, rendendola antimacchia
- Impermeabilizza le fughe, rendendole antimacchia
- Facilita la manutenzione ordinaria

La migliore protezione si realizza con **Fila MP/90**, un protettivo liquido antimacchia che penetra in profondità proteggendo il pavimento senza generare pellicole superficiali, per questo motivo **Fila MP/90** non altera il colore della superficie e la sua efficacia rimane inalterata per diversi anni.

- Stendere puro a pavimento asciutto e pulito (almeno 4 ore dopo il lavaggio), applicarlo con pennellessa, rullo o straccio avendo cura di distribuirlo in modo omogeneo su tutta la superficie comprese le fughe.
- A pavimento asciutto (dopo circa 4-8 ore) togliere la parte in eccesso che si è seccata ed è rimasta in superficie, con straccio di cotone pulito e asciutto, lucidatrice o monospazzola con disco beige. I residui tenaci si possono rimuovere utilizzando un panno pulito imbevuto di **Fila MP/90**.

Resa: 1 litro/30 m² circa.

3. Protezione tipo lappato

Con la protezione si:

- Impermeabilizza la superficie, rendendola antisporco
- Ridona lucentezza superficiale
- Facilita la manutenzione ordinaria

La migliore protezione si realizza con **Fila PD15**, un protettivo liquido antisporco che penetra in profondità proteggendo il pavimento senza generare pellicole superficiali, per questo motivo **Fila PD15** non altera il colore della superficie e la sua efficacia rimane inalterata nel tempo e resiste agli agenti chimici.

- Stendere il prodotto puro a pavimento perfettamente asciutto e pulito (almeno 4-8 ore dopo il lavaggio), applicarlo con pennellessa o straccio avendo cura di distribuirlo in modo omogeneo su tutta la superficie comprese le fughe.
- Massaggiare accuratamente il prodotto in fase di stesura in modo da farlo penetrare bene e di eliminare completamente i residui di prodotto dalla superficie.
- Entro 10 minuti dall'applicazione di **Fila PD15** bisogna togliere la parte in eccesso che si eventualmente è rimasta in superficie, con straccio di cotone pulito e asciutto o della semplice carta tipo scottex.

Resa: 1 litro/70 m² circa.

4. Protezione tipo naturale-strutturato

Nel caso di superfici rustiche lo sporco si deposita negli interstizi del materiale, rendendo difficile la manutenzione.

In questo caso, per pavimentazioni interne ed esterne si consiglia di utilizzare **Fila STOP DIRT** che protegge il pavimento dallo sporco rendendo più facile la manutenzione ordinaria. Il protettivo **Fila STOP DIRT** protegge il pavimento senza creare pellicole superficiali, non altera il colore della superficie e non modifica l'originale grado di scivolosità (prove eseguite secondo i metodi B.C.R.A. e ASTM C 1028-2007).

- Stendere il prodotto puro a pavimento perfettamente asciutto e pulito (almeno 4-8 ore dopo il lavaggio), applicarlo con pennellessa o straccio avendo cura di distribuirlo in modo omogeneo su tutta la superficie comprese le fughe.
- Massaggiare accuratamente il prodotto in fase di stesura in modo da farlo penetrare bene e di eliminare completamente i residui di prodotto dalla superficie.
- Entro 10 minuti dall'applicazione di **Fila STOP DIRT** bisogna togliere la parte in eccesso che si eventualmente è rimasta in superficie, con straccio di cotone pulito e asciutto o della semplice carta tipo scottex.

5. Manutenzione per tutte le superfici

Per la pulizia di tutti i giorni

FilaCleaner detergente neutro a basso residuo.

Si diluisce a seconda dello sporco. Ad elevate diluizioni non necessita di risciacquo.

Non lascia, sulla superficie lavata, residui cerosi o siliconici in quanto ne è privo.

Si può usare anche con macchine lavasciuga.

Resa: 2.000 m² con 1 litro - diluizione 1:200.

Per sporchi più intensi e per togliere le macchie

Fila PS/87 detergente sgrassante e smacchiatore.

Un prodotto, tante funzioni: detergente, sgrassante, decerante e smacchiatore.

Basta scegliere la diluizione giusta per ottenere l'effetto desiderato.

- Diluito 1:10 in acqua, per rimuovere sporchi intensi
- Puro, lasciandolo agire per circa 20-40 minuti per rimuovere le macchie e
- residui di stucco epossidico.

Washing-protection and maintenance of porcelain tiles

ENG

1. Washing after laying

Washing after laying is a fundamentally important stage for any subsequent treatment and for maintenance.

Acid washing after laying removes laying residues and normal building site dirt, such as: grout, glue, paint, different kinds of building site dirt

It is a good thing to know that over 90% of site complaints are due to poor, or even inexistent, washing with acid detergent after laying.

For this operation, Fila suggests **Deterdek**, the acid-based descaling detergent that does not emit harmful fumes and does not harm the grouting. It removes building-site dirt - grout, plaster, different kinds of encrusted dirt.

Fila Deterdek combines descaling with effective cleaning.

The site must be cleaned on completion, when the concrete grouting is completely dry (at least 36-48 hours), closely following the instructions given below:

- Use **Fila Deterdek** diluted 1:5 (1 litre of Deterdek in 5 of water, preferably hot)
- Brush the floor thoroughly, then evenly apply the solution of diluted **Deterdek** using a normal flat brush, floor mop or a rough household floor cloth or rubbing with a single-brush machine, fitted with discs with green buffer for large surfaces;
- Leave for a few minutes, depending on how dirty the surface is;
- Rub hard with a green abrasive sponge or flat brush with nylon bristles or, for large areas, a single-brush machine fitted with green disc and liquid vacuum cleaner;
- Remove residues with cloths or a liquid vacuum cleaner.

Coverage: 1 litre/40 m² – dilution 1:5

To remove residues of epoxy grouting we recommend using the specific

Fila CR10 detergent.

Before cleaning with **Fila CR10** wait until the grouting product applied is ready for use, closely following the instructions given below:

- Apply directly to the surface to be cleaned using a large flat paintbrush, perfectly covering all residues of plaster.
- Leave for about 30 minutes
- Rub with an abrasive sponge or even a spatula to remove larger residues. A single-brush machine fitted with the most appropriate disc can be used for floors
- Rinse thoroughly
- For more stubborn residues, repeat the same procedure, leaving the product to work for longer.

2. Polished protection

Protection:

- Waterproofs the surface, making it stain proof
- Waterproofs grouting, making it stain proof
- Makes ordinary maintenance easier

The best protection is offered by **Fila MP/90**, a stain-proofing liquid protector that penetrates deep down. **Fila MP/90** protects the floor without forming a surface film and therefore does not alter the surface colour and its effectiveness remains unaltered for several years.

- On a clean dry floor and at least 4 hours after washing, apply undiluted with a flat paintbrush, roller or cloth, taking care to spread evenly over the entire surface, including the grouting.
- When dry (after about 4-8 hours), remove any dried excess from the surface with a clean dry cotton cloth, machine polisher or single-brush machine with beige disc. Stubborn residues can be removed with a clean cloth soaked in **Fila MP/90**.

Coverage: 1 litre/30 m² approx.

3. Lappato protection

Protection:

- Waterproofs the surface, making it dirt proof
- Restores surface sheen
- Makes ordinary maintenance easier

The best protection is offered by **Fila PD15**, a dirt-proofing liquid protector that penetrates deep down. **Fila PD15** protects the floor without forming a surface film and therefore does not alter the surface colour and its effectiveness remains unaltered over time and resists chemical agents.

- On a perfectly clean dry floor and at least 4-8 hours after washing, apply undiluted with a flat paintbrush or cloth, taking care to spread evenly over the entire surface, including the grouting.
- Rub thoroughly when applying to make the product penetrate well and completely remove product residues from the surface.
- 10 minutes after applying, any excess residues of **Fila PD15** must be removed from the surface, with a clean dry cotton cloth or simple kitchen roll.

Coverage: 1 litre/70 m² approx.

4. Natural-textured protection

Dirt gets stuck in the uneven surface of rough-finish floors, making maintenance difficult.

In this case, we recommend using **Fila STOP DIRT** for indoor and outdoor floors and paving. It protects the surface from dirt and makes everyday cleaning easier.

Fila STOP DIRT protects the floor or paving without forming a surface film and does not alter the surface colour or the original skid resistance of the material (tests carried out using B.C.R.A. and ASTM C 1028-2007 methods).

- On a perfectly clean dry floor and at least 4-8 hours after washing, apply undiluted with a flat paintbrush or cloth, taking care to spread evenly over the entire surface, including the grouting.
- Rub thoroughly when applying to make the product penetrate well and completely remove product residues from the surface.
- 10 minutes after applying, any excess residues of **Fila STOP DIRT** must be removed from the surface, with a clean dry cotton cloth or simple kitchen roll.

5. Maintenance for all surfaces

For everyday cleaning

FilaCleaner low-residue neutral detergent.

Dilute depending on the dirt. When highly diluted it does not need rinsing.

It does not leave waxy or silicon residues on the washed surface as it does not contain them.

It can also be used with washing and drying machines.

Coverage: 2,000 m² with 1 litre – dilution 1:200

For more intense dirt and for removing stains

Fila PS/87 degreasing detergent and stain remover.

One product, lots of uses: detergent, degreaser, wax remover and stain remover.

Just choose the right dilution to give the desired effect.

- Diluted 1:10 in water to remove intense dirt
- Undiluted, left to work for around 20-40 minutes to remove stains and residues of epoxy grouting.

Lavage, protection et entretien du gres cerame

FRA

1. Lavage après la pose

Le lavage après la pose est une étape fondamentale pour toutes les interventions ultérieures et pour l'entretien.

Le lavage acide après la pose permet d'éliminer les résidus de pose et les salissures normales d'un chantier, telles que le mortier, la colle, la peinture et les salissures de chantier de différentes natures. Il faut savoir que plus de 90 % des réclamations en chantiers sont dues à un lavage au nettoyant acide d'après pose mal exécuté, voire absent.

Pour effectuer cette opération, Fila propose **Deterdek**, un nettoyant décapant acide qui ne dégage pas de vapeurs nocives ni n'endommage les joints. Il élimine les salissures de chantier comme le mortier, le ciment-joint et les incrustations de différente nature. **Fila Deterdek** associe à l'action décapante une action nettoyante efficace. Le nettoyage de fin de chantier doit être effectué après le séchage complet du mortier (au moins 36 à 48 heures après la pose), en respectant scrupuleusement les consignes suivantes :

- Utiliser **Fila Deterdek** dilué à raison de 1:5 (1 litre de Deterdek pour 5 litres d'eau, si possible chaude)
- Balayer soigneusement le sol avant de répartir uniformément la solution de **Deterdek** diluée, à l'aide d'un balai-brosse normal, d'un mop de lavage pour sols (balai-serpillière) ou d'un chiffon rugueux pour environnements résidentiels, ou encore, en frottant avec une monobrosse équipée de disques avec tampon de couleur verte pour grandes surfaces ;
- Laisser agir quelques minutes, selon la ténacité de la saleté ;
- frotter énergiquement avec une éponge abrasive verte ou avec un balai-brosse à fibres en nylon, ou, si la surface est très étendue, avec une monobrosse équipée de disque vert et d'un aspirateur de liquides.
- Enlever les résidus avec des chiffons ou un aspirateur de liquides.

Rapport : 1 litre/40 m² – dilution 1:5.

Pour éliminer les résidus de mortier époxy, nous conseillons d'utiliser le nettoyant spécifique **Fila CR10**.

Avant de procéder au nettoyage avec Fila CR10, attendre les délais de séchage du joint utilisé, en respectant scrupuleusement les conseils indiqués ci-après :

- étaler directement sur la surface à nettoyer avec une brosse, en couvrant parfaitement tous les résidus de mortier ;
- laisser agir environ 30 minutes ;
- frotter avec une éponge à récurer, voire avec une spatule pour les résidus les plus épais. Pour l'application sur le sol, il est possible d'intervenir avec une monobrosse en utilisant le disque le plus adapté ;
- rincer soigneusement ;
- en présence de résidus plus tenaces, répéter l'application en suivant le même procédé et laisser agir le produit plus longtemps.

2. Protection du grès poli

La protection permet :

- d'imperméabiliser la surface, pour la rendre antitache
- d'imperméabiliser les joints, pour les rendre antitaches
- de faciliter l'entretien courant

La meilleure protection s'effectue avec **Fila MP/90**, protecteur liquide antitache qui pénètre en profondeur, protégeant le sol sans laisser de film superficiel. C'est pourquoi **Fila MP/90** n'altère pas la couleur de la surface. En outre, son efficacité perdure plusieurs années.

- Appliquer pur sur un sol sec et propre (au moins 4 heures après le lavage), appliquer à la brosse, au rouleau ou à la serpillière, en veillant à bien répartir le produit sur toute la surface, y compris sur les joints.
 - Sur sol sec (après environ 4 à 8 heures), éliminer l'excédent de produit qui a séché et est resté en surface avec un chiffon en coton propre et sec, une cireuse ou une monobrosse équipée d'un disque beige. Les résidus tenaces peuvent être éliminés à l'aide d'un chiffon propre imbibé de **Fila MP/90**.
- Rapport : 1 litre/30 m² environ.**

3. Protection du grès rodé

La protection permet :

- d'imperméabiliser la surface, pour lui donner une protection antislissure
- de restituer le brillant de la surface
- de faciliter l'entretien courant

La meilleure protection s'effectue avec **Fila PD15**, protecteur liquide antislissure qui pénètre en profondeur, protégeant le sol sans laisser de film superficiel. C'est pourquoi **Fila PD15** n'altère pas la couleur de la surface.

En outre, son efficacité perdure plusieurs années. De plus, il résiste aux agents chimiques.

- Appliquer pur sur un sol parfaitement sec et propre (au moins 4 heures après le lavage), appliquer à la brosse, au rouleau ou à la serpillière, en veillant à bien répartir le produit sur toute la surface, y compris sur les joints.
- Bien frotter le produit pendant l'étalement afin de le faire pénétrer et d'éliminer totalement les résidus de produits de la surface.
- Dans les 10 minutes qui suivent l'application de **Fila PD15**, l'excédent de produit éventuellement resté en surface doit être éliminé à l'aide d'un chiffon en coton propre et sec ou d'une simple feuille de papier essuie-tout.

Rapport : 1 litre/70 m² environ.

4. Protection du grès naturel structuré

En présence de surfaces rustiques, la saleté se dépose dans les interstices du matériau, ce qui complique l'entretien.

Dans ce cas, pour les sols intérieurs et extérieurs, il est conseillé d'utiliser **Fila STOP**

DIRT, qui protège le sol contre la saleté, afin de simplifier l'entretien courant. Le protecteur **Fila STOP DIRT** protège le sol sans créer de films superficiels. Il n'altère pas la couleur de la surface et ne modifie pas le degré de résistance au glissement d'origine (essais exécutés selon les méthodes B.C.R.A. et ASTM C 1028-2007).

- Appliquer pur sur un sol parfaitement sec et propre (au moins 4 heures après le lavage), appliquer à la brosse, au rouleau ou à la serpillière, en veillant à bien répartir le produit sur toute la surface, y compris sur les joints.
- Bien frotter le produit pendant l'étalement afin de le faire pénétrer et d'éliminer totalement les résidus de produits de la surface.
- Dans les 10 minutes qui suivent l'application de **Fila STOP DIRT**, l'excédent de produit éventuellement resté en surface doit être éliminé à l'aide d'un chiffon en coton propre et sec ou d'une simple feuille de papier essuie-tout.

5. Entretien pour toutes les surfaces

Pour le nettoyage quotidien

FilaCleaner nettoyant neutre laissant peu de résidus.

Il doit être dilué en fonction des salissures à éliminer. Si le produit est très dilué, il n'est pas nécessaire de rincer. Il ne laisse pas de résidus cireux ni de silicone sur la surface lavée, car il n'en contient pas.

Il peut être également utilisé avec des autolaveuses.

Rapport : 2 000 m² avec 1 litre - dilution à raison de 1:200.

Pour les salissures plus tenaces et pour éliminer les taches

Fila PS/87 nettoyant dégraissant et détachant.

Un seul produit pour plusieurs fonctions, car il nettoie, dégraisse, décape et détache. Il suffit de choisir la dilution adaptée pour obtenir l'effet souhaité.

- Dilué à raison de 1:10 dans l'eau, pour éliminer les salissures tenaces
- Pur, en laissant agir entre 20 et 40 minutes, pour éliminer les taches et les résidus de mortier époxy.

Condizioni Generali di Vendita

general conditions of sale conditions générales de vente

OGGETTO DELLA FORNITURA - La fornitura comprende esclusivamen-
te quanto indicato nella conferma d'ordine. Eventuali caratteristiche e
dati risultanti da cataloghi o illustrazioni sono sempre approssimativi
ed è quindi facoltà della Venditrice apportare quelle variazioni che si
ritenessero opportune senza obbligo di preavviso.
ORDINI - Sono sempre impegnativi per il Compratore: la Venditrice sarà
vincolata solo dopo la conferma scritta.
S'intende comunque che ogni ordine viene fatto con la completa accet-
tazione da parte del Compratore di tutte le condizioni generali stabilite
dalla Venditrice. Nell'ordinazione dovranno essere contemplati soltanto
articoli di produzione corrente: non saranno comunque oggetto di con-
ferma quei materiali per i quali la Venditrice in dipendenza di esigenze
interne o di mercato, ha ritenuto opportuno sospendere la produzione.
Ogni ordine deve essere inoltrato per iscritto, anche se, per ragioni di
urgenza dovesse essere preceduto da comunicazione telefonica.
TRATTATIVE - Quanto contemplato nella conferma della Venditrice an-
nulla eventuali accordi o trattative che non siano riportati nella confer-
ma stessa.
TERMINE DI CONSEGNA - Decorre dalla data della conferma d'ordine e
deve intendersi come approssimativo: esso non costituisce comunque
condizione essenziale e può
essere prorogato dei diritto dalla Venditrice per cause indipendenti dal-
la propria volontà.
SPEDIZIONE - La spedizione si intende effettuata al momento in cui
la fornitura viene messa a disposizione dell'acquirente o all'atto della
consegna al vettore. Sono ammesse spedizioni anche parziali senza
che ciò debba costituire per il Cliente causa di ritardo.
TRASPORTO - La merce, salvo specifico patto contrario scritto, è sem-
pre venduta franco Stabilimento **Cotto Petrus srl** e viaggia a rischio
e pericolo del Compratore anche se la Venditrice si fosse assunta l'o-
nere della consegna a domicilio. Il Compratore è tenuto a precisare
al momento dell'ordine dettagliate modalità di trasporto: la Venditrice
spedirà la merce col mezzo ritenuto più opportuno qualora mancassero
preventive indicazioni al riguardo, senza che ciò costituisca per il Com-
pratore motivo di reclamo.
ASSICURAZIONE - Se richiesta è sempre a carico dell'acquirente.
IMBALLO - Salvo accordi diversi, preventivamente accettati dalla Ven-
ditrice, l'imballo sarà sempre in cartoni: avvenuta la consegna all'ac-
quirente o al vettore senza reclami o riserve, cessa ogni responsabilità
della venditrice.
Gli europallet saranno addebitati al costo di Euro 9,00/pz.
**Ci riserviamo la possibilità di variare l'importo in caso di significati-
ve variazioni del costo delle materie prime.**
RECLAMI - I reclami relativi ad eventuali ammanchi o rotture dovranno
essere fatti esclusivamente al vettore: qualunque altro reclamo relativo
alla natura e caratteristiche del materiale dovrà essere tempestivamen-
te inoltrato alla Venditrice a mezzo lettera raccomandata, non oltre in
ogni caso 10 gg. dal ricevimento della merce. TRASCORSO TALE TER-
MINE SI INTENDE CHE LA MERCE È STATA VISTA ED ACCETTATA nello
stato in cui si trova.

CARATTERISTICHE MATERIALI - Le tonalità dei colori campionati han-
no carattere puramente indicativo, così` come la possibilità di ripetere
tonalità precedentemente fornite, non rappresenta impegno per la for-
nitrice e motivo di reclamo per l'acquirente.
GARANZIA - La Venditrice garantisce la qualità di quanto fornito confor-
memente alla scelte richieste dal Compratore: si impegna a sostituire in
pari quantità quei materiali che, a suo insindacabile giudizio, dovesse-
ro presentare difetti tali da non essere considerati conformi all'ordine,
senza peraltro essere tenuta a risarcimento di danni diretti o indiretti di
qualsiasi ragione. La garanzia non è trasferibile ed è valida soltanto nei
confronti dell'acquirente cui è intestata la fattura di vendita.
CONTESTAZIONI - Nel modo più assoluto non saranno presi in esami i
reclami riferentisi a materiali già in opera. In ogni caso, anche qualora
il Compratore ritenesse di poter vantare reclami o diritti, non sono am-
missibili ritardi o sospensioni di pagamento in corso.**INADEMPIENZE E**
INSOLVENZE - In caso di mancato o ritardato pagamento totale o par-
ziale, sarà facoltà della Venditrice risolvere in tutto o in parte qualsiasi
contratto in atto, facendo valere ogni suo diritto.
PREZZI - Si intendono sempre riferiti al listino in vigore al momento
della conferma della Venditrice. Sono sempre relativi a merce franco
stabilimento e non comprendono quindi altri oneri come I.V.A. bolli o
tasse di qualsiasi natura, che saranno sempre a carico del Compratore.
PAGAMENTI - I pagamenti dovranno essere effettuati come indicati
nella conferma d'ordine: a tutti gli effetti il luogo del pagamento resta
fissato nella sede della **Cotto Petrus srl** anche se effettuati a mezzo di
personale autorizzato, rimessa diretta, tratte autorizzate o effetti. La
Venditrice ha facoltà di porre in circolazione i titoli ricevuti in pagamen-
to, i quali si intendono sempre accettati prosolvendo e salvo buon fine.
L'inosservanza dei termini di pagamento dà diritto alla Venditrice:
- di esigere gli interessi di mora al tasso commerciale corrente più
le spese;
- di emettere tratte ritenendole autorizzate in luogo dei pagamenti
pattuiti per rimessa diretta;
- di sospendere ogni evasione di ordini in corso;
- in caso di protesti di esigere a vista l'importo totale dovutole.
SPESE TRATTE - Gli oneri relativi al bollo delle tratte emesse dalla Ven-
ditrice sono a carico dell'acquirente e saranno conteggiate in fattura e
comprese nella tratta stessa.
FORO - Qualsiasi controversia dipendente o conseguente da contratti
con **Cotto Petrus srl**, anche se riferibili ad affari trattati da propri di-
pendenti o incaricati fuori dalla propria Sede, unico Foro competente è
quello di Reggio Emilia.
RISERVA DI PROPRIETÀ - La merce resta di proprietà della **Cotto Pe-
trus srl** fino a suo completo pagamento.

ITA

SUBJECT OF THE SUPPLY - The supply only includes that indicated in
the order confirmation. Features and information given in catalogues or
illustrations are always approximate and it is therefore the seller's right
to make any variations considered necessary without advance warning.
ORDERS - These are always binding for the purchaser: the seller shall
only be committed after written confirmation. It is, however, under-
stood that each order is placed with the purchaser's full acceptance of
all general conditions established by the seller.
Only articles of current production shall be contemplated in the order:
those materials the production of which the seller has considered it
advisable to suspend owing to internal or market requirements shall
not therefore be subject to confirmation. Every order shall be made in
writing although this can be preceded by a telephone call in the event
of urgent need.
NEGOTATIONS - Everything indicated in the seller's confirmation voids
an agreement or negotiation which may not be included in the confir-
mation itself.
DELIVERY TERM - This runs from the date of the order confirmation
and shall be considered as approximate; it shall not, in any case, be
considered an essential condition and may be extended by the seller in
the event of unforeseen circumstances.
DISPATCH - Dispatch is understood to have been made the moment
in which the goods are placed at the purchaser's disposal on deliver
to the carrier. Partial dispatches are also permitted without this being
considered by the customer as cause of delay.
TRANSPORT - Excepting specific agreement in writing to the contrary,
the goods are always understood as having been sold ex works **Cotto**
Petrus srl and travel at the purchaser's risk even when the seller has
assumed the charge of delivery at the
purchaser's. The purchaser undertakes to live details about the means
of transport when placing the order: failing this, the seller shall dispatch
the goods via the means considered most opportune without this enti-
tling the purchaser to make claims.
INSURANCE - If requested and always at the purchaser's charge.
PACKING - Excepting different agreements accepted by the seller
packing shall always be in cartons: all responsibilities of the seller shall
cease once delivery has been made to the purchaser or carrier without
claims or reserves. **Europallets will be charged Euro 9,00/each. We**
reserve the possibility to change this amount in case of significant
increases in the cost of raw material.
CLAIMS - Claims pertaining to missing goods or breakages shall only be
made to the carrier. Any other claim concerning the nature or features
of the material shall be immediately forwarders to the seller by means
of registered letter no later than 10 days following receipt of the goods
themselves. Once this terms has elapsed the goods shall be understood
to have been examined and accepted as they are.
FEATURES OF THE MATERIALS - The shades of the sample colours are
purely indicative while the possibility of repeating previously supplied
colour tones shall not be binding for the seller and shall not entitle the
purchaser to make claims.

ENG

GUARANTEE - The seller guarantees the quality of the supplied ma-
terials according to the grades requested by the purchaser: the seller
undertakes to replace in equal quantities those materials which, ac-
cording to his final judgement, present defects as
to be considered not in compliance with the order, without, moreover,
being obliged to reimbursement of direct or indirect damages for any
reason whatsoever. The guarantee cannot be transferred and shall only
be valid for the purchaser to whom the sales invoice is made out.
DISPUTES - In no case shall claims pertaining to already laid materials
be considered. Moreover, in no case shall delays or suspensions of pay-
ments in progress be permitted even if the purchaser considers himself
entitled to make claims.
UNFULMIMENTS AND INSOLVENCIES - In the case of total or partial
unfulfilled or delayed payment the seller shall have the right to com-
pletely or partly withdraw from
a contract in progress and to demand all his rights.
PRICES - These are always understood to refer to the price list in force
at the moment of the seller's confirmation. They always pertain to
goods delivered ex works and do not, therefore, include other chares
such as VAT, stamps or taxes of any nature which
shall be at the purchaser's charge.
PAYMENTS - Payments shall always be fulfilled as indicated on the or-
der confirmation: in any case, the place of payment shall always be the
registered offices of **Cotto Petrus srl** even if made through authorized
personnel direct remittance, authorized drafts or bills. The seller has
the rights to circulate the instruments received in payment which shall
always be understood to have been accepted pro solvendo and subject
to collection.
Failure to comply with the terms of payment entitles the seller to:
- exact the arrears interests at the current commercial rate, plus
expenses;
- issue drafts, considering them authorized in place of the agreed
payments by direct remittance;
- suspend fulfilment of orders in progress;
- in the event of protests, to exact the total due sum on sight.
DRAFT EXPENSES - Charges pertaining to the stamps on the drafts is-
sued by the seller shall be at the Purchaser's charge, shall be calculated
in future and included in the draft itself.
COMPETENT COURT - The only competent court shall be that of Reggio
Emilia for all disputes resulting from or following contracts with **Cotto**
Petrus srl even when they concern business negotiated by employees
of the company or authorized persons outside the registered offices.
RESERVE OF PROPERTY - All goods shall remain the property of **Cotto**
Petrus srl until payment is made in full.

Condizioni Generali di Vendita

general conditions of sale conditions générales de vente

OBJET DE LA FOURNITURE - La fourniture comprend exclusivement ce qui est indiqué dans la confirmation de commande. Les caractéristiques et données indiquées sur les catalogues ou les illustrations sont toujours indicatives; le vendeur a donc la faculté d'apporter les variations qu'il retiendrait opportunes sans obligation de préavis.

COMMANDES - Elles engagent toujours l'acheteur; le vendeur sera retenu engagé uniquement après la confirmation écrite. Il est entendu dans tous les cas que chaque commande est faite sous acceptation totale et entière de l'acheteur des conditions générales fixées par le vendeur. La commande devra reporter uniquement les articles de production courante; en aucun cas les matériaux pour lesquels le vendeur, dépendamment des exigences internes ou de marché a retenu opportun d'arrêter la production, ne feront pas l'objet d'une confirmation. Toute commande doit être adressée par écrit, même si pour des raisons d'urgence elle devait être précédée d'une communication téléphonique.

NEGOTIATIONS - Ce qui est prévu dans la confirmation du vendeur invalide tous accords éventuels ou négociations qui n'auraient pas été reportées dans la dite confirmation.

DELAIS DE LIVRAISON - Les délais courent à compter de la date de la confirmation de commande et son donnés à titre indicatif; ils ne constituent en aucun cas une condition essentielle et peuvent être prorogés de droit par le vendeur pour des causes indépendantes de sa volonté.

EXPÉDITION - L'expédition s'entend effectuée au moment où la fourniture est mise à disposition de l'acheteur lors de livraison au transporteur les envois, même partiels sont admis sans que cela constitue une cause de retard pour le client.

TRANSPORT - La marchandise, sauf accord écrit contraire, est toujours vendue franco établissement **Cotto Petrus srl** et voyage aux risques et périls de l'acheteur même si le vendeur aurait pris à sa charge la livraison à domicile. L'acheteur est tenu de préciser, lors de la commande, les modalités détaillées de transport; le vendeur expédiera la marchandise avec le moyen qu'il retiendra plus opportun dans le cas où des indications précises ne lui seraient pas fournies à ce sujet, sans que cela constitue un motif de réclamation de la part de l'acheteur.

ASSURANCE - Quand elle est requise, elle est toujours à la charge de l'acheteur.

EMBALLAGE - Sauf accords contraires, acceptés préalablement par le vendeur, l'emballage sera toujours en cartons: une fois que la livraison a été effectuée à l'acheteur ou au transporteur sans réclamations ou réserves, toute responsabilité du vendeur cesse. **Les europalettes seront débitées Euro 9,00/pièce. Nous nous reservons la possibilité de changer le montant au cas d'importantes variations du cout des matières premières.**

RECLAMATIONS - Les réclamations relatives à d'éventuels manques ou cassures devront être présentées exclusivement au transporteur; toute autre réclamation concernant la nature et les caractéristiques du matériel devra être adressée immédiatement au vendeur par lettre recommandée dans les dix jours qui suivent la réception de la marchandise. Passé de cela, la marchandise sera considérée comme acceptée dans l'état dans lequel elle se trouve.

FRA

CARACTERISTIQUES DES MATERIAUX - Les tonalités des couleurs échantillonnées ont un caractère purement indicatif, ainsi que la possibilité de repérer des tonalités fournies précédemment, ne représente pas un engagement pour le fournisseur ou un motif de réclamation pour l'acheteur.

GARANTIE - Le vendeur garantit la qualité du produit fourni conformément aux choix requis par l'acheteur; il s'engage à remplacer dans les mêmes quantités les matériaux qui, d'après son jugement sans appel, présenteraient des défauts tels à ne pas être considérés conformes à la commande, sans pour cela être tenue au remboursement de dégâts directs ou indirects de quelque nature. La garantie n'est pas aliénable et elle est valable uniquement à l'égard de l'acheteur auquel est instituée la facture de vente.

CONTESTATIONS - Les réclamations concernant des matériaux déjà en oeuvre ne seront absolument pas prises en compte. Dans tous les cas, même si l'acheteur estimerait pouvoir avancer des réclamations ou prétendre des droits, aucun retard ou cessation des paiements en cours ne sera admissible.

INEXECUTION ET INSOLVIBILITE - Dans le cas de non paiement ou paiement retardé total ou partiel, le vendeur aura faculté de résilier tout ou partie du contrat en cours, en faisant valoir tous ses droits.

PRIX - Les prix se réfèrent toujours au tarif en vigueur au moment de la confirmation du vendeur pour la marchandise franco établissement et ne comprennent donc pas tout autre frais tels que TVA, timbres fiscaux ou taxes de quelconque nature, qui seront toujours à la charge de l'acheteur.

PAIEMENTS - Les paiements doivent être effectués comme indiqué dans la confirmation de commande; à tous les effets le lieu de paiement est fixé auprès du siège de **Cotto Petrus srl** même s'ils sont effectués par l'intermédiaire de personnel autorisé, par paiement direct, traites acceptés ou effets bancaires. Le vendeur a la faculté de mettre en circulation les effets reçus pour paiement, que s'entendent toujours acceptés par cession en vue de paiement et sauf bonne fin. La non observation des délais de paiement donnera droit au vendeur:

- d'exiger les intérêts de retard au taux commercial courant en plus des frais;
- d'émettre des traites en les considérant autorisées à la place des paiements convenus comme paiement direct;
- de suspendre toute exécution de commande en cours;
- d'exiger le paiement à vue, en cas de protêts, du montant total qui lui est dû.

FRAIS D'EMISSION DE TRAITES - Les frais relatifs au timbre fiscal des traites émises par le vendeur sont à la charge de l'acheteur et seront reportés sur facture et comprises dans la traite.

TRIBUNAL - Seul le tribunal de grande instance de Reggio Emilia sera compétent pour tout différent dépendant ou conséquent de contrats avec **Cotto Petrus srl** même si pouvant se référer à des affaires négociées par ses propres employés ou mandatés hors de son Siège.

RISERVE DE PROPRIÉTÉ - La marchandise reste de notre propriété jusqu'au paiement total.

note notes notes

Cotto  Petrus
